

GOD

To His Messenger

YOU WILL GIVE THE KEYS OF KNOWLEDGE

During his teaching, THE BEING OF LIGHT (CHRIST) revealed a considerable amount of celestial mysteries, hitherto hidden from men, among which the ultimate truth.

You are naked before the sky, what you hide, what is hidden, all is discovered.

This sentence is not only profound meaning and truth, but it reveals an underlying, unknown mystery man, and highlights a warning.

The nudity in this case is actually an image, to raise awareness to the man, he has a spiritual origin and that being so, there is nothing that a spiritual entity, after the Supreme divine source (God) and that life which was given from the divine principle that God is sole owner. On the spiritual plane, the body is of minor importance, because it is neither more nor less than a car, or clothing

As you wish, allowing the spiritual entity of moving

In the material universe-bit or she is. As such, the carnal envelope is never an obstacle, a screen behind which the spiritual entity could hide and cover up his actions and that it would isolate or hide in the spiritual sphere, and to be more precise in the celestial world and those in charge.

She likes it or not, the spiritual entity is linked to the spiritual world, as true as it has long forgotten this truth, she is following, and hopes to return. The land is part of the material universe-binary, which is itself a component part and parcel of the infinite heavenly kingdom. If the man is actually a trilogy in terms of its composition, as I've indicated in my previous book, (GOD, revelations of the insider track 13) its spiritual essence was created

For the being of light in his image, that is to say that its essence has been caused by the Supreme Being, identical to his.

To better penetrate the exact meaning of the sentence of the being of light, it is important to place the entity in its spiritual context, in its true environment, highlighting the sphere in which it operates, namely land and who is not his own, against the spiritual universe from which it emerged.

You know now my friends, the Supreme Being is by his divine essence, EVERYTHING, the container and the contents of ANY.

By everything, I mean, everything that exists, different spiritual worlds, the material universe-bit, what they contain, the heavenly spiritual beings, spiritual entities, animals, plants etc., are all inside and integral component of GOD.

They all have their own contexts, and depending on the service they should go, but with the primacy of celestial beings and spiritual beings, benefited the circumstances, evidence or specific germs, from God himself, since he is the creator god, the creative source, giving everyone a role and specific, explaining their existence, and that place is within the Supreme Being, and gives them a place choice.

Therefore, the being of light, the principle, the creative word said:

I am EVERYTHING. Everything comes from ME, EVERYTHING came to ME.

Also, given what I just said, we understand much better why man, eminently spiritual entity, and evolving on the planet earth, which belongs to the material universe-binary, which is itself part integral to the heavenly kingdom, it can essentially be derived from the fountain and invigorating swim in the fact of divine emanation of the Supreme Being.

This is the major reason that God gives the right, the natural ability to know everything about the spiritual entities, since we are in him, and he in us. Nothing is unknown to him, he knows everything about us, and plans to advance each of our actions, our intentions, our desires. This explains the allusion to nudity, raised by Christ.

Faced with God, indeed, the celestial world, if we hide things, our real intentions, our actual designs for men, this is not possible in heaven, that is to say, celestial beings who s 'there are, let alone the Supreme Being.

All our actions are listed in the "book of life" and no one can escape without having to account for his works, especially when they are focused on evil.

I like this title, to warn men who have committed criminal acts, especially criminals for example, and to escape human justice, decide to escape, to evade it by committing suicide, thinking and avoid any sanctions or penalties could be imposed. They work well on a pure loss. These people forget a fundamental, if they can escape the justice of men, they can never escape God's. Nobody can escape it, it is simply impossible.

To try to understand the context in which men act and how they are blind to truth, imagine my friends, seeing a bad head, moving, simply working in an environment populated by beings with eyes to see, and ears to hear.

Now we easily see that from the middle of changing our bad light has huge gaps in the intellectual, he has no clear idea of the realities of its environment, people he meets, and has a distorted sense of reasoning and necessarily limited. He is also unable to move with ease, providing the scope of its acts, and ignores the effects he creates for himself and his entourage, not to mention the person with whom he moves, since that latter has the same cécité. Il did not aware that his every movement, every word, his actions are somehow under the spotlight, seen and heard by beings that He rubs and even recorded without his knowledge. It really has a vague idea of the real world around him, can perceive the essence, and knows what he wants to imagine.

His blindness takes away any sense ruling, and forced to live following an immutable ritual, prepared in advance because based on specific criteria, and from documents clearly defined, by forging a world or is excluded a large part the real world, and things appear or not.

He is firmly convinced that nobody sees, or has a vague idea, not the means, and can thus account for each of his works, whether good or bad. He is determined to believe that nobody can say what he saw and heard him.

But man is this bad light. Being stuck in the strong field that represents the body and its environment, a prisoner of his fleshly envelope and negative impulses it generates and distributes its real being, following a heavy accumulation of waves and negative mass He eventually forget who he really is. To this is grafted a very long period during which he has lived in this state, ending up believing that his blindness is not one, and the world in which it operates, is the only existing.

Strange as it may seem, the man with eyes to see, ears to hear, continues to behave like a bad light and an evil hear, thinking evolve into a unique world, sure to be the central point of the universe.

That is why, although it is on earth, each of his actions, his intentions mean, his works and thoughts bellicose, can go undetected and are seen and heard, not only by the heavenly beings (angels) but course, especially by God, because it remains in everything, and of course in man.

What do you expect to hide from God?

The BEING OF LIGHT said:

My soul was afflicted son on men because they are blind in their heart. They do not. Naked they were born, they come out naked.

The day you'll be naked as newborn children who walk on their clothes, then you will see the son of the living. For you there will be no fear.

In remembering these words of Christ, I wanted to complete the definition of nudity alluded to the Being of Light in his teaching, highlighting the focus of its investigation, the ME real man and its future in relation to the material world, materialism in which he was imprisoned, and his emphasis of how outrageous his fleshly envelope.

Initially, we saw that the spiritual entity embodied suffering the effects of his actions, and if she could hide from his fellows in the spiritual world and the celestial beings who live there and GOD of course, it is simply impossible. Realizing the significance of her nudity as a man can penetrate two other deep sense of the term, indeed, determine the behavior of the spiritual entity, and gives him the opportunity to focus and attitude based his spiritual evolution, then acting, thinking, reasoning, as such.

It is both question of conscience that we are spiritual beings, the human body on earth that plays the role certainly useful and important in the universe or we are moving right now, but secondary, because in truth is a garment or a vehicle as you wish, we coatings for the occasion, being in an environment governed by the material.

If the man has forgotten everything now, so as to identify with its carnal envelope, it is quite otherwise with regard to the child, since, freshly arrived in the world of men he retains still remember a recent memory of his true identity, his real self, and apart from men by a diametrically opposite behavior. The child as such, a different vision of the material world, does not penetrate even the concept linked to good and evil, and shows a great affinity towards people he meets.

From the moment you remove your clothing, or you leave your vehicle body as I have often written, you become what you really are, and this awareness will take you to see things differently, to better perceive truth, reality, to see the spiritual world as it really is to reframe your perception, you change your behavior radically. You can go there often, being able to finally revive you drive using your real personality, and therefore to better know God.

The spiritual entity incarnated on earth, who withdrew his human clothing, is happy because she finally knows who she is, stands out from other men, and can thus while continuing to work among them, continue treatment of his spiritual essence, and be on the sidelines of the men still blind. She can say:

I see and hear.

Before entering the body of the newborn's mother created in her the spiritual entity shall, as regards the material universe-binary or human life as being naked.

It is then unwrapped the flesh, that is to say, without suit land, to use the image of the Being of Light.

When his time of life on earth comes to an end, I mean of course the human body, death will occur as the men called, (it is actually the death of the carnal envelope, as the angels which is charged, will this fateful moment, known to God alone, removed from the human body, the spark of life which enabled him to live) and the spiritual entity permanently out of the body that had been hers a defined time, it has become unusable. She stands naked, and return in the spiritual world or it will be accountable for his actions, his works.

We have just seen another definition of nudity expressed Being of Light in his teachings. You have now understood, the second is the spiritual entity body without his clothes, being outside the latter, both working well understood in the same direction.

But the concept on the nudity is actually a brand, and the two definitions above, are intimately linked, because they act together, highlighting the role played by the spiritual entity had regard to the mission that it must be done on earth, or the lessons she must learn for its hi.

It must urgently be taken into account, and not continue to live in the dark. These definitions highlight the centrality of the spiritual entity, relationships and the relationship it has with the

spiritual world, (which incidentally is related to the material universe-bit) which is constantly maintained at Throughout his earthly sojourn.

The data relating to nudity raised by the Being of Light, also allows the spiritual entity, access to this level seldom reached by man, called waking state, which has tremendous potential, and allows it to penetrate the mysteries hidden to ordinary mortals. It can then worry about the echo, and reveal to men, these hidden data for their development and spiritual evolution. The goal then by the insider, is to put man on the right path, one that leads to the light, finally giving him the opportunity to see and hear.

This third definition is, in my humble opinion, the most important because it allows the insider to make a man what he lost and forgotten. This knowledge concerning him, that he finally frees himself from the grasp of the material that holds a prisoner and unable to be aware of its own reality, where it accumulates in its carnal envelope, masses negative due to its actions based on evil.

On the other hand, started playing a determining role for the man, insofar as it gives him the opportunity to refocus its activities, it retransmitting teaching full of wisdom, justice, liberation, which he away, working out of ignorance, wandering on earth, having lost all benchmarks, with no real purpose in life, which unfortunately thoughts directed towards evil, committing criminal acts that can only destroy, and carry law to the second death, that is true. He gives the man what he has long sought, the Father, God he was not familiar with, not knowing that in either direction, or neither seek, nor how to find it.

To the initiated, the most beautiful love is to act as God does, by showing a growing interest in man, enabling him to better understand his mistakes, his errors in transmitting the key knowledge, pointing the path to light, to eternal life, to the being of light, and hoping he can finally imitate, and reach the Supreme Being.

The concept related to nudity door on both why the insider spiritual is on land, on the lessons she must learn, and how to understand, but also to raise awareness to the man, that all worlds are interconnected.

God had said it would establish a new heaven and new earth, verily I say unto you, he has done all this, after his coming among men.

It is true that the material universe-changing bit where the man with the composition, prevents it from being aware. On the other hand, the human eye can not see that material, masks the essential spiritual entity which to see the spiritual world must use its own eyes, those of his spiritual essence, and for this he must remove his fleshly envelope. What is telling the man's hand his material universe, there is no other.

The spiritual entity incarnate, still living on earth for the occasion with a clothed human body, if she does not practice the precepts, ordinances, if it does not apply the commandments of God, who are both barometer, assault guidelines, paths marked and rejected the forces of evil in all its forms, renounced materialism, annihilated the poisons that are the envy, desire, and have faced defeat suffering, misery, pain, then it will continue to live and act blindly.

It will not reach the state of arousal, and therefore will never have access to the hidden mysteries, everything is veiled. The man who, on the contrary, reached a state of alert, after following the path laid out above, entered the spiritual world, the mysteries hidden will no longer be obscured, he will be revealed. He then made one of those rare people who can say: I see and hear, yes I know GOD. Remember my friends, that the celestial beings and consequently God sees us as we are, that is to say, spiritual entities. They do not see us otherwise.

What do you know the beginning, you're looking for and the end?

Where is the beginning, there also will end. Blessed is he who is held in the beginning, he know the end, and it will not taste death.

While Christ to the apostles passed on the terrestrial and celestial data to enable people to liberate themselves from the embrace materialism in which they are stuck, and need to get them to enter the information on their development and spiritual improvement, they have wanted to go too fast and asked it to happen at the end of time.

The Light Be aware of their deficiencies, and their error, they gave the answer above. This response is not only full of teaching, but encapsulates everything you need to know and understand regarding the spiritual entity, a major factor in the eyes and heart of God, but also clarifies the role Central played the Being of Light in the evolution of man. It gives the spiritual entity, guidance and outlines on the way forward.

When Being of Light explained to the apostles it was the way and the life he not only spoke the truth, but they really showed the way forward as being as it is, and it an axiom, without question, truly life. Every part of him, through him, and returned to him because without him, there is nothing. It is the major and essential, and ALL. The way alluded Christ, through Him, and leads to God. It moreover allows to find and therefore know better, but also, and it is vital to collect how to go, what to do and not do, and specific direction to follow. Christ has often said, he loved men, and has repeatedly proven his love for them has resulted in a pressing concern among other things, give them eternal life, so they live with him.

But to achieve this it is necessary to understand spiritual entity that must turn to God, who alone is the source invigorating, and gives it to whom he wants is to say to all those want to be like him, and of course, reject the evil, as God himself does not like bad guys. Knowing I have often said that the Supreme Being is the only one who can truly say it is:

Well, just, right, and Love.

The only way that the master can be granted, would be given more accurate, because only the teacher transmits knowledge, knowledge, and teaches one he chooses.

On the contrary he hates above all else;

The evil in all its forms, the bad, the angry, the aggressive, the murderers, those who advocate the Satanic philosophy, by removing the man from the Supreme Being.

By telling men, spiritual entities par excellence, and clearly sought to move toward the beginning, the Being of Light they want to specify a given major, consisting of their awareness that God alone can save them, release them, they offer him eternal life. But for this it is imperative to find.

To better understand why my friends remémorons we speak of the Being of Light. It is not by chance and without reason, he says, but to help us grasp the essence.

I am the first and last, the alpha and omega, the beginning and end. Before me there was nothing after me there will be nothing.

But by saying this phrase, God wants to raise awareness that there was no one before him, no one has gone before, and there will be no one else after him. It is therefore the beginning of all existence, is itself life. It is indeed the very existence, since source and first principle of what IS. Without him, we not only would not exist, but we would go nowhere. We'd be the non-existence.

The Supreme Being is the gem that any entity spiritual search since the dawn of time, not knowing which way to go, move, or how. God offers the new generation of men, our one to which we belong, namely this one consisting last to know, namely for the first time who he really is, and enter the necessary knowledge giving this man opening mind, the mental and spiritual insight necessary to enable it to discover and find the way to this gem.

In returning to the beginning, the spiritual entity that can better penetrate the mysteries of heaven, pierce the quintessential word of God and the path that led to the creation of all things, and thus leads to the existence of the man, and thus to better know and love. All will become clearer, more precise. We finally know that all existence is in God himself, and that any development of any nature whatsoever, following a road manager, being in the Being of

Light. It is indeed the present, past and future at once, as all three remain intimately linked. And are part of it.

God my friends, as I tell you, is the beginning and end. In other words, he is the one and only possess the unique ability to be because it is the whole of all existence, but also and especially to be the only component. It is the major germ that comes from all things, celestial being, spiritual entity, and material of any nature whatsoever.

Nothing is without him, is not without cause, nothing can exist or be, without and outside it. This is why Christ said precisely that by going back to the beginning, that is to say to God, the spiritual entity will find the key, and know the end.

From the moment you will realize that the Being of Light is the beginning of all things, and also the end of all existence, since it is by His Divine Essence the only existing original form, the only person to have emerged nothingness, and he has owned since the beginning know him to spread naturally and thus take the place full of nothing which has thus disappeared.

This means that somehow God has dissolved the void at the point of being able to completely replace its divine essence was fully occupied, and the only remaining component, the first element of the whole, and became the first living The original source which remains LIFE.

This simply means that God is the component of the whole, the container and contents at all, we can not exist with him. So we are in HIM.

It would be pointless to act as foul Satan, who has imagined, knowing who was really God, he could be the equal of the Being of Light. So my friends, do not imitate the devil.

Therefore, listen to the Being of Light, and locate the beginning because, yes indeed, there also will end. The end in the mind of Christ, meaning cessation of all existence painful of all suffering is the end of a frantic search for the truth, which is precisely his place there at the beginning. The end, and it is also paradoxically, the beginning of a life full of hope, joy, serenity, security, insurance and live with God for eternity.

Searching the beginning, it is also and above all understand that by following the path of the Lord, that peace, joy, love, we ascended the path to the light, so that we can melt into him, our only true Father.

God is, and I can not say it enough, the All, the Beginning and the End. It is also the link between these two opposite sides, being the driving force, the single wire connector, which begins, continues and ends there, as both movement and rest.

Up to the beginning, it is ardently desired to find God, because only then will we be on, as we promised, we will be with him forever, to live in the celestial kingdom infinite including the Supreme Being, is in fact the only temple of God.

God is the tabernacle, on this place, secret, because free from all impurity, and only be truly holy. It is this secret place that the son is the only one to know. Be the Son.

God's temple is sacred because it is naturally not only holy but also being the component at all, it is home to everything that lives, and can enter his secret place, his divine essence, and seek shelter, that the only spiritual beings who have during their earthly existence, working for good, rejected the evil committed no crime, and clean their spiritual essence.

Be the spiritual entity.

God is the heavenly Jerusalem, the holy city as an entity spiritual search since the dawn of time.

It is written:

I saw no temple in the city, because the Lord God Almighty is its temple, and lamb.

The city has no need of sun or moon to shine, for the glory of God illuminates and the Lamb is its light.

There will be no night, and they (spiritual entities) need no lamp nor light, because the Lord God gives them light.

Look to the living as you live, because this death will be impossible. Death you seek to see, without achieving the vision.

(Understand, unable to see, where to find it.)

Being of Light told his apostles:

There will be days when you seek me, and you will not find me.

The last sentence of Christ is clear and explicit. By itself, it shows the ignorance of men about God, and the place where he remains. But also and especially the ignorance of spiritual entities in relation to the reality of their real self and the Divine Being. But the apostles like most humans, ignoraint while the concept of heaven, and even less of the celestial being who is the architect.

The teaching of Christ in this unusual and innovative for its time (I must say, since Adam and Eve) that brings people from that period, ie unknown, penetrating, deep, rich and truth new in the sense that for the first time, humans are still unknown knowledge concerning not only the material sphere, or they operate and their analogy clarifies the effects of their actions while they reveal their deepest beings and the role they play in relation to the material universe, but also by analogy to the heavenly world and what it contains data hidden mysteries.

Christ wanted to be the most supreme being men and the truth, placing it as the spiritual entity in relation to God, their true Father.

The passage of his education mentioned above, is unique in that it enables man not only do not forget to compare itself to God, he does not forget the role that playing against him, it is imperative to look and keep as a reference, but also and above all, be aware that the Supreme Being is the way, life as he has in him the life-giving source, which gives him alone, the right to say he is alive.

While he has offered provisionally and for a time only he knows, the germ or spark of life that allows us to exist on earth, we must not forget that our presence on this planet intended to exclusive, we learn the lessons necessary for our salvation, to face trials in order to consolidate our gains (resistance to the forces of evil) and thus purify our spiritual essence, that God, based on our behavior, the completion of our works and of course, how we had to reject evil, to give us eternal life.

That is why it is necessary to clarify that we should look to God as we are alive.

There are obviously two possible situations.

The first is to realize that as embodied spiritual entity, having clothed for the occasion carnal envelope and evolve on Earth, we are part of what makes living, although this is dependent on our success in terms spiritual elevation, and we shall be granted for a limited time, corresponding to the time that God alone knows.

Our position of living in this case is conditioned by a number of factors, which include our ability to be confronted with various hardships that we face, such as pain in all its components, suffering, poverty, materialism , envy, lust, evil in all its forms, and our ability to confront them and of course most importantly, our ability to overcome them, to stand up to them somehow, without suffering any damage or stress and annihilate them without being tested or affected, and to achieve the final result, none of them affect us in the future. This is the final step sought by any wishing to reach the state of awakening.

In this way, we act as God's desire for our own good and our spiritual success, we can purify our spiritual essence, and enter the world as céleste. Et often said the Being of Light:

You know God, and you shall not taste death.

The man still unclear, but it is the lowest level, apart from the world of darkness, spiritual evolution, and therefore far too many weaknesses. We see it constantly now, with its propensity to suffer the effects of evil, and there indulge in turn, without trying to resist.

Looking towards God, the one and only Being truly alive, we can draw from him the inner strength that we lack, we will resist and fight evil, taking reference to that which we want like God, and who possesses the qualities we lack, namely:

Goodness, righteousness, sense of justice, compassion, affinity, love.

But God's goodness and love he feels toward men, gives them alone the exceptional opportunity, as they evolve on land in search of happiness and thus eternal life promised, to know, to see him because he does not hide, the better he does everything that we know more, and that we meet.

As long as we live, and we choose to respect our power well, its precepts, ordinances, regulations, to work for good, to be fair and right, to reject evil and above all the cruelty and consequently not to shed blood, then we have the joy of knowing him, and he will be happy to meet us.

Remember my friends, God does not malice.

God our Father loves us all, and do not want any of us will lose. For verily I say unto you, The Supreme Being is not hidden, and earnestly desire that we were, and we all went to him. He himself did everything that we were.

Remember my friends, that our real Father is a Divine Spiritual Being, and he has created him as a spiritual entity. Also when talking to us, or he wants to communicate in any manner whatsoever with us, he always does in Divine Being.

The man had forgotten this truth, lost all benchmarks, including its true origin, translates the words of the Being of Light in Term and materialist thought, which fundamentally changes the exact meaning of the divine connection, and thus prevents d ' grasp and draw the full essence.

Here is the true meaning and the actual direction that wants Being of Light, followed by seeing the man. He hoped that finally we reason, we thought, we act, we behave in spiritual entity, so that thus we resolve most of our problems, our difficulties. Only in this way can we meet him, then follow his advice.

As long as we live, many opportunities we are offered, including change our behavior, our actions, rejecting evil, if by chance we have sunk, because God in His mercy, forgive those who repent of their crimes and acts of kindness and love, changes in attitude and work towards the well, turning its back on the evil, and especially the Satanic philosophy.

The second is to realize that evil, since it is detrimental and therefore affect others, even more so when it comes to take his life, inevitably leads to real death. But more importantly, removes the spiritual entity, author of such criminal acts, any opportunity to see, know or find God. It belongs to the Supreme Being alone, give or take life.

The spiritual entity that engages in evil, is found as mired in a tangled matrix from which it can not cope. Therefore it is as blind and deaf, departs radically from the truth, and sinks deeper into darkness. She loses all sense of reality, all benchmarks, any identity, space has shrunk considerably, his trial and his sense of reasoning are greatly impaired, so that she is unable to lie, not knowing who she is, and where she is.

How in these conditions, himself forward, act or provide medium to long term, or imagine that there could be something else, another universe.

Remember my friends, the words of the Being of Light.

Death, you will try to see without achieving the vision.

Yes verily I say unto you, any spiritual entity who during his lifetime, that is to say, incarnated in a human body on earth, worked for evil, and thus committed a crime, his earthly death, will experience the death real, and can never meet God.

She herself is divorced from the heavenly kingdom, was isolated by locking themselves in the first field, then in the darkness where she can get out. This place is cut off, separated from the heavenly kingdom, and all those who are changing, experience the torment. Some of them do

not realize what they did, once they are there, then call God in vain, trying without success because they do not know how, or how achieve. For them it's too late.
God alone is life. He gives that he wants, but mostly to all spiritual beings who seek him, who love and work as he wishes for their good.

Being of Light said:

When life is created in you life you save. If you have no life, no life will kill you.

Life my friends, is God.

The Pharisees and the scribes have received the keys of knowledge and they were hidden. They have not come inside, and those who want to enter, they are stopping them. Look, be careful as the serpent and harmless as a dove.

When Being of Light came among men, it was exceeded by so much ignorance, meanness, delusion, pride, vanity, conceit. There were many men, including policy makers, who arrogated powers, acquired more often so misleading, or clerics who did the title in appearance, that working away from philosophy and dogmas deification advocated deviance, claiming to act on behalf of God, when in reality they sought only their personal well-being, or standing to assert their social position.

Is it different today?

Politicians, placing himself above the laws to which they remain unaware of the existence copiously, Argant they are the law, conceal the truth to the people to keep in ignorance of their true intentions, in this the unspoken goal of preventing him from understanding and thus to grow.

The text cited in the preamble, and delivered by the Being of Light, denotes sadness about this situation.

What lessons can we draw from it.

It is very difficult to broach this subject without being on, not only offend the sensitivities of ignorance that man has the spiritual world, see its inability to consider the existence of the celestial universe, but also skepticism of the Holocaust deniers, whose refusal to admit the obvious presence of other worlds than ours, their ignorance is matched only unacknowledged, their pride from a supposed intellectual superiority, which limited their bans any sensible reflection realistic, objective and clear, that man is not the only thinking beings in the universe-bit hardware in which it operates, for there are also celestial beings.

Certainly if the believers await with interest the openness to truth, willing to learn more, see to finally unravel the hidden mysteries revealed to them, I know I will also raise many objections, which basis of reflection will be located in a total lack of knowledge about the celestial data, the share of detractors.

I will bring by force conviction and determination, knowledge of men as ignored new to them, highlighting the knowledge of hidden mysteries, and to me transmissent by the Being of Light. Since antiquity, man has left rocking by the existence of a unique universe, and a hypothetical possibility that might exist in another. The deniers are given away to their heart, making every effort so that the latter case continues, and so be it.

If it is permissible for a man to believe in the existence of the celestial universe, often approach mental or intellectual, do not follow.

Speaking of the spirit or soul of man, is now commonplace, even if this idea is now inked into the collective memory, it remains difficult to penetrate for many, remains the domain of the illusion, dream, unreal, utopia for others, including the denial.

The believer today is used as the only realism, openness of mind, advanced intellectual search for truth and therefore God, and knows that the material universe-binary exists side of the spiritual world of heaven, knowing that he is part of a whole.

It is also the only one to wish to know about the true nature of his real self, although in this context, it is difficult to understand why he is on earth, and how to get out.

But back in time, and us recall the sacred writings, trying to dissect about the Being of Light, managing to penetrate. We will see then that the Supreme Being, from the beginning and at several times, talking to men, why using the services of more alert, known as prophets.

If they were chosen by God, simply because they stood apart from the mass of men, who unlike their contemporary, discovered early on that materialism was a hindrance to progress, development and l 'spiritual development, and demonstrated a clear step forward in terms of spirituality, and pierced with ease much of the hidden mysteries also receiving instruction

from the Divine Being, which has allowed them a hand know him better, and secondly, by their understanding, to intercede with men serving as relays and data communications for new celestial important and vital, that God asked them to reveal.

So often the doctrines of God are misunderstood by men, or difficult to penetrate and collected, it comes largely from ignorance of recent data related to truth, and their inability to rid not only of materialism, but also its effect.

Other factors are the cause of this misunderstanding, including:

The low level of spiritual messengers, unable to explain clearly and accurately, the celestial data and especially had some difficulties to send men to the divine teaching.

Low Advanced Palmeiras average intellectual level, have prevented the man to receive this teaching, and therefore not only understand but also to assimilate and thus able to apply it.

Christ had just said:

Why do you want me to tell you the mysteries of heaven, then you do not already understand the terrestrial data that I teach you?

Two other reasons lead men to remain in blindness, which include its propensity to ease, to receive without doing anything to make no effort to get out of difficulties, to complain at the slightest glitch or complication involving their embarrassment on behalf of others. They forget that the activity of any kind, physical, moral, mental, especially professional, such as confrontations with various events encountered on the path of life, keep alert and maintain their intellect, their sense of reasoning their ability to perceive right from wrong, and thus bring his inner self or inner being, to remain alert and vigilant, increasing their ability to counter and reject the forces of evil.

They become better able to act or react to the circumstances of the route that represents the path of life, and can thus be objective, restraint, resulting in them, this awareness essential that lead on the path of righteousness, law, justice, compassion, and to reject evil. More importantly, they will remain alert, their sense of discernment, and want change.

The second factor stems from the precedent in the sense that the man who lets himself go, no longer thought of itself, made all loses reactivity becomes the unconscious object of malicious and manipulative people who lead to the paths of perdition, and so he plunged into the mazes of moral decay, social, intellectual, spiritual, professional, familial.

These men, the son of Satan, he will commit against their will, because of their weakness, see criminal wrongdoing, which lead inevitably and surely in the world of darkness.

These malicious men are lost themselves lost and unable to transmit correctly and faithfully, if they are religious, the word of God, giving the latter a misinterpretation and false, they retain much of 'to admit manipulated in order to obtain their harmful acts. These vile and despicable man, never enter the heavenly world, and therefore do not want that man, the believer enters also.

Many men, who said that the prophets were very fortunate to have seen, heard or been in contact with the Supreme Being. What they ignore the truth is that these messengers were open to his teaching, and that as a spiritual entity, they had this opening, and mood, the spiritual elevation that led naturally to the known, since, unlike men, they had sought and found.

The man seems to forget another important point is that God loves all human beings, and that the special relationship he maintained with the prophets, it also seeks to have them with him. I mean, that God at all times, try to contact him speak, and often achieve, using all channels. But it strives to remain blind and deaf, and not only continues to ignore, but will even claim that there is not.

The man with a creed, that of ignorance.

If I do not know, or if I can not explain is that it does not exist, or that it is necessarily false.

What simplistic reasoning is not it?

If the Being of Light wanted when he came among the men do what the prophets had said about him, and thereby achieve or to complete the acts messianic prophecies and announced by the Messengers Angels and revealed to men is primarily, and he said, even if humans do not notice them for their understanding, he realizes and completes what he said or announced well in advance, and of course it still holds all its promises.

Take my friends, one by one all the words that God said to view and messenger, and remember these revelations, words that Being of Light asks them to transmit to men, you will see that God makes every effort to help the spiritual entities incarnated, understand, and to awaken from the lethargy into which they are immersed, they penetrate into the exact meaning, they take the essence, and they realize they act as did their parents, Adam and Eve, continuing to turn to listen to Satan and thus isolate themselves from him, the kingdom of heaven and sinks into materialism, forgetting the major spiritual data.

The evil forces, currents from the foul prince of darkness, are the cause of the loss of men, and destroy all those who volunteer.

God hates evil and still more those who advocate the philosophy of the devil, which is characterized, among those who decided to apply, by aggression, attitudes, violent behavior, which is home to the latent and is exacerbated by the slightest reflection, as it is minor, they amplify and use as a pretext for disaster response, they believe to be a force of nature, then it is the prerogative of the weak.

That is why God gives them this warning, he asked Ezekiel to relate to men.

Give them warning from me.

You'll die if you do not warn if you do not speak to warn the wicked from his wicked way, and to save his life. The wicked shall die in his iniquity, and I'm his blood.

But if you warn the wicked, and he did not turn from his wickedness and his evil way, he shall die in his iniquity, and thou hast delivered thy soul.

Anyone who is violent, spreading blood, or commits something similar if the disgraced wife of his neighbor, he oppresses the poor and needy, commits robbery if, that is not live not. If Cain was the first murderer in history, we see that it has spread, and even today, men make every effort to imitate it by listening to the devil, adopting for this purpose, satanic philosophy, which leads to actual death.

But it's much too simple, too, to put everything on the back of Satan, although its role is evident in the loss of men, and global chaos in stoking the malice and hatred, be humans among the lowest, it echoed, taking the negative current account to them, and spreading all over the place, pouring blood, robbing, stealing, cheating, spreading hate speech from the thought of the devil, acting shameless and feeling no remorse.

One of the main reasons for the disaster that is global capitalist system that divides people, creating huge disparities, whose envy and desire, the two poisons of humanity, are the highlight. This economic system was set up by the prince of evil, and suggested that policy makers like applicators downs designs, with the clear aim of increasing the divide and hatred among men.

Capitalism advocates among others, the enrichment and leads consequently a range of desire, need crass materialism, which not only blind men, but make them greedy, envious, petty, calculating, indifferent, cynical and lead indulging in lust and luxury, to engage in the fight of unbridled acquisition of material goods, to crush the weak without any emotion, for which they feel nothing but contempt, seeing a profound indifference.

Capitalism causes a crowd of deviance, and brings to those who decide to adopt it, the urge and growing to have, possess, raise, increase its capital or its property owners at the expense of people around them, to whom he will give anything, much less leave. His thoughts are often belligerent, and he will stop at nothing to achieve his ends.

I spoke earlier of the weak, of course it is obvious that ignoring those who employ this satanic philosophy is that it can be adopted only by those who can not withstand the forces of evil, which the need and desire are two wings destructive. Rage is the prerogative of people incapable of self-control to resist impulses mercantile. They are generally intolerant, violent, aggressive, cold, crafty, hypocritical, etc..

At this stage, men who are parties also belong to the class of those who have no self-esteem, and are largely, penniless.

These copy stupidly low instincts of the wealthy or those who built a fortune questionable, choosing a path that will lead inevitably to their downfall. They use most of the time, means or methods that are destructive:

Theft, fraud, sale of banned and dangerous to humans, kidnapping, trafficking of women, murder etc..

Men who decide to follow the path of evil, malice, created in them by word and thought, waves and negative mass, which firmly hold their spiritual essence in matter, and among them various causes blindness, the most serious, spiritual blindness, which results from these spiritual entities reaction of cause and effect, which encloses their spiritual essence in matter from where they will be extremely difficult to leave.

They find themselves slaves to their bodies, they can withstand the lowest instincts.

These men remain isolated from the spiritual world, and consequently, from God. They lock themselves in materialism, and are really becoming blind and deaf.

What is distressing at this stage of spiritual depression is the fact finding among these men, who incidentally is the lowest level of human evolution, religious, who develop evil thoughts, and proselytizing, by pretending to believe that they are working on behalf of the true God.

Verily I say unto you, these monks also spread the lie. They are among those that Being of Light said:

They received the keys of knowledge and have hidden. They have not come inside, and those who want to enter, they are stopping them.

God will punish severely those wicked religious, who spread lies, force men to shed blood on behalf of the Supreme Being, when in reality the god to whom they refer is called Satan.

The problem is that these religious dare refer or more, most often claiming the One God. They do not know, do not know who he is, and therefore can not in any way rely on him.

Believers who listen, should ask themselves questions about the real motives and intensions of these religious unworthy because no representative of God, knowing and having penetrated his word, not push a man to commit crime.

These monks are not of God, they are not of the Being of Light, but Satan they are instruments.

The believers should flee from these men because they do not apply the precepts of the Lord change his word they transform the way down to quench their designs, and apply any of his commandments. They will never enter the kingdom of God, and do not want that believers enter.

Being of Light did he not say:

Thou shalt not kill?

Since men obey these unjust religious, and execute their designs, they also condemn themselves to eternal torment. For them this is also death. They will not either in the celestial world, and will never see God.

Do not listen to my friends these false religious, when you say the bloodshed in the name of God, because they are not of heaven or God, but the devil. Not only those who listen and do what they say, will never be a martyr, but his murderous act, he is condemned to be cut from the book of life, and will be sent into the world of darkness with Satan.

God, my friends, magnanimous and extreme kindness, forgive all men who have realized their mistakes, and perceived the trap set by people serving the devil, and therefore, repent of their sins even more serious, since they modify their behavior and work now for good.

Keep in mind my friends, that the Supreme Being does not malice, and he does not forgive the one who is doing it.

The reason is simple, those who chose the path of evil, hurts his neighbor, and God does not support it. There is another reason, are not we all brothers?

Do not listen to Satan and his flock who champion falsehood, wickedness, evil, when they want you to believe that you do not risk anything by doing evil, and you will not die.

Remember, these are precisely about the prince of evil was given to Adam and Eve. It continues today with the men of this generation.

Listen to God, my friends, for everything he says is true, and it will really deliver.

On the other hand, to achieve its ends, thereby losing men, Satan uses many tricks using different persuasion, into believing that the material universe-bit is the only one there, but they can freely indulge in earthly pleasures of all kinds, and they can safely indulge in racism, antisemitism, contempt towards ordinary people, they can if they wish to evidence because it is a strength of character, pride, vanity, conceit.

But this being vile men hide the effects of such acts, condemn them to confinement, isolation, and to be subtracted from the book of life.

Wake up my friends and listen to God, because it is only the truth and the life.

Being of Light told the men who followed him then:

Rather than trying to amass wealth or material things ephemeral, can disappear on Earth, seeking instead to store up treasure in heaven that will last forever.

God said in warning to men:

All souls are mine, the soul of the son, as the soul of the father. One and one is mine. The soul that sins, it shall die.

If the wicked turn from all the sins he has committed, if they observe my statutes and practices justice and righteousness, he shall surely live, he shall not die.

If the righteous turns from his righteousness and commits iniquity and dies for it, it dies because of iniquity he committed.

If the wicked turn from his wickedness and practices justice and righteousness, he will save his soul alive. If he opens his eyes and turns away from all the transgressions he committed, he shall surely live, he shall not die.

Heavens, listen. Earth listens.

My people had no understanding.

Woe to the sinful nation, a people laden with iniquity, the evil race, corrupt children.

I can not see iniquity, even the solemn meeting. When you extend your hands, I avert my eyes from you. When you multiply prayers, I do not listen. Your hands are full of blood.

Wash you, make you clean.

Remove from my eyes the evil of your doings, cease to do evil. Learn to do good, seek justice.

Declaring the end from the beginning what should happen well in advance and which is not yet completed. My decisions will remain, and I will execute my desire.

It's me calling from the east a bird of prey, from a distant land a man to carry my designs. I the LORD thy God, I thee charge for your own good, I'll take you in life that you should follow.

If my friends, you have carefully read what I have written, you understand that since Adam and Eve, Satan has done everything possible to lie to men, the primary aim, to lead them to perdition.

Stand out of the son of perdition, those who have chosen the path of evil, because they never know the truth.

Remember that we are spiritual beings, whom God has always told the truth.

Men, including religious, professed that the body's death is the real end of human beings, but that's false, that there is not. The death of the spiritual entity, as God says to men, this one is real.

But this truth, Satan has made every effort to ensure that you do not know.

The key knowledge you are given, take.

Maybe men think they, I came to sow peace in the world.

They do not know, I have come to sow division on the ground.

A fire, sword, war.

There will be five in one house, three will be against two and two against three. The father against son, son against father.

They will stand solitary and simplified.

Being of Light accused the Pharisees and doctors of the law of the first generation that owning or having in their possession the keys of knowledge and spiritual science, they have decided to keep in their possession. Not only did they not seek to use them for their own spiritual evolution, but they had decided not to reveal their existence, and does not disclose its contents to the men they are keen to remain in ignorance.

Provided that this is the illiteracy rate was very high, people could only listen to them, and thus was obligated to respect their decision, for fear of being labeled as rebellious, see even dissent, and put away the bank or the company can be also charged as a heretic.

The men who hunger and thirst for knowledge, these respected scholars, and could not imagine that they could reveal the bare minimum, and that often such knowledge or truth revealed by the prophets, was truncated.

To better contain the reactions of people to control, to move in the desired direction, guide the reasoning of men, the Pharisees, scribes and doctors of the law, not wishing to penetrate deeper knowledge of God had decided to keep them in ignorance, to prevent unauthorized access to data spiritual divine.

So when the Being of Light came among men, he has had among other things, to correct this situation, is why he has sought to address the people, by revealing the great lines of the word of God, even if sometimes it was a parable.

The scholars at that time, those who received the keys of knowledge transmitted by God to the prophets, and who had received them, I want to hear about the Pharisees, scribes, and doctors of the law went principle, as now the rest, they were only able to penetrate the subtle, uniquely able to draw the quintessence of perceiving the true meaning and to update the mystery hidden in it finds that men Argand deliberately kept in ignorance, would be unable to capitalize.

The only problem is that the makers did nothing to explain, let alone provide them any information on these key knowledge.

Another major reason precluded these scholars unfair not to reveal the major spiritual knowledge, was in fact quite the contrary, that the people in his wisdom, as enlightened by the Holy Spirit, entering into the real content, and realizes that they do not want to not only that progress on the spiritual plane and thus its members are unable to open the gateway to the celestial world, but they did manage to penetrate their true intentions, thus losing all their prerogatives.

We must say this, that these iniquitous makers, often had arrogated privileges, some were even lower foment intrigues to self proclaimed religious leaders by example to enjoy the many advantages inherent posts usurped, and cynicism, asking people to respect the law of God, lest they suffer the wrath of God, and bear heavy burdens when they take it easy.

Among the various complaints that the Being of Light reproached them, we find:

Give the people a false appearance of themselves, showing a character trait, in which attitudes and behaviors wheedling, masking a reality that does not reflect their true merits. They asked the people to give alms to offer in sacrifice a portion of their property, while they were amassing wealth. What they hid the people, God is impossible, because he sees and knows everything. That is why, in speaking of them, Being of Light to use this image.

You clean the outside of the cup and platter, (the cup and the dish is actually the human body, and the trait they showed to the people) and inside you are full of rapine and wickedness .

To make the people believe they complied with the tenets deific, when in fact they neglected justice and love of God. If you pay tithes of mint and so on., Should not we also respect and practice the divine justice, and really prove by healthy attitudes and sincere, they love men, and consequently God.

Seek the honors of being or desire is always the first places, or to appear before men in public places.

Hiding a substantive evil by acting as the people through ignorance, mistake them for good people.

Render honors to the great men who shed blood, maintaining a policy identical, the same vision, and approving their bellicose actions.

And finally, not only does not know God, but also to prevent the people know better.

To have the texts, documents which are recorded the word of God and not seek to reveal to men who want yet.

Not observe the precepts, laws, ordinances, commandments, the laws of God, and to prevent men from doing so.

Not understand the word of the Supreme Being, and prevent those who wish.

It was not uncommon to see members of the clergy not to name them, and often the first of them live in lavish houses, covered with honors, living in opulence, and benefit from royal largesse or other political leaders, in exchange he was to be maintained in this position, apply a wall of silence on the people. It is also that to achieve this, fomented intrigues unfair.

That is why, in order imperative to restore order, Being light it is often made to them by giving back to people what they had been removed, and the divine light that n ' had more.

Now you understand a little better about the precise meaning of Christ when he says:

Maybe people think that I came to sow peace in the world.

They do not know that I have come to sow division on the ground.

A fire, sword, war.

That said, the men of this first generation were also a large responsibility in their shelving, and the blindness that caractérisent. It is far too easy to blame others because of our failures, or to claim that if one is not doing or if it fails, it is because of others. We are ourselves responsible for our passivity, our laziness, and it is especially the latter which is the cause, yet it is that we do in this regard our self criticism.

The Human idle, unable to respond or say no when it feels it wants to be messed him astray, or make him take a path that led into the darkness and therefore the balance of forces evil must be able to depart from evil beings and leaders who want to confine the matter.

These leaders liars and son of Satan, bring us into error and lead us straight to perdition.

This is not because the Pharisees, scribes, teachers of the law masks the truth that men should not be reactive, and look for themselves to break the word of God, which incidentally was their been revealed by Moses, and supplemented by other prophets.

Of course, the words of the Being of Light mentioned in the preamble may surprise many, but not only is it necessary to put in their contexts, but they will never be understood by the layman, he is blinded by the Satanic philosophy, trapped in materialism and ignorant of its disastrous effects on everyone.

Most people who read these words have been wrongly shocked because none of them knew why Christ had spoken, all ignorant and even today, that the effects from negative actions due evil forces, destroy human beings, and delaying see negate any spiritual evolution.

Being of Light, Divine Spiritual Being par excellence, has always behaved as such even during his earthly teaching, clinging to know men, while setting highlight two major data.

The first is awareness of them, reveal God by allowing them to better perceive.

Second, tell the men who they really are, the reasons for their presence on earth, and tell them how to behave to get rid of stress due to the effects of matter on their spiritual essence, while reminding them of the rules to achieve and warn against the forces of evil, let alone against all those who seek to mislead. They should in this case, they resist and reject all their advances.

On the other hand, make them aware, it is imperative for them to find all the lost values, and to walk again on the path to light. As such, did he not served as an example?

When an entity loses all sense of reality, no longer knows who she is or she is or the exact content of the universe or it evolves, it is necessary, see a master must intervene and reframes in him retransmitting new data understandable to her, putting his finger on all its mistakes, and revealing new knowledge that will help and lead to salvation.

This case is Christ, while men understand that they must necessarily stand out from the wicked leaders, highlighting all their faults, so they know all, he knows all of the.

We must also understand that the being of light, good and merciful, does not malice, and does everything to warn people that their traps behind the son of Satan, but the punishment they face s' they continue to work towards evil, always giving them the opportunity to change, and repent.

The fire, sword, war, which alludes Being of Light, focuses on understanding men, there are two main ways.

The good and justice, and therefore that of God, who led all spiritual beings in it, to eternal salvation.

The trouble, from the angel déchut as being the first murderer, who out of hatred of mankind, to set up an evil philosophy based on falsehood and wickedness, to mislead men, maintain strong inked in materialism, which leads all those who choose it, to the world of darkness.

The man has a choice, hence the division word spoken by Christ.

Being light did not he say that we can not serve two masters as well, because eventually it will end in betrayal by one, to the detriment of another.

This reflects a perverted nature, unstable, calculating, dishonest, from one who is doing it.

Of course, since it reveals to men their faults, their serious flaws, their ignominy, their iniquities, it arouses in the latter reactions of rebellion, resentment, violent movements from those in the first of which are beings who do not abandon their social benefits, professional or public, and all their prerogatives, and will make every effort to prevent the current from the truth from spreading.

Therefore will be heard here and there, voices from both routes mentioned above, and which men belonging to the two opposing currents, seek to convince others of their mistakes, see their awareness of their errors.

The son of God being in the right, trying to reason with the lost of Satan, who do not absolutely understand they are on the road to perdition.

That is why it is written:

There will be five in one house, three will be against two and two against three. The father against son and son against father. Mother against daughter and daughter against mother.

Only remain as so rightly said the Being of Light, those who walk the path that leads to the celestial kingdom, that is to say God.

Remember my friends, the parable of the sower.

The seed is the word of God.

God to sow the seeds on the earth, so that germinate, they produce good fruit, useful, beneficial and nourishing to man.

Those along the path are those who hear, then the devil comes and takes away their heart to speak, lest they (men) do not believe and be saved.

Those on the rock are those who, when they hear the word, receive it with joy, but they have no root, they believe for a while, and when they succumb to temptation.

That which fell among thorns are those who hear the word go and let choked by the cares, riches and pleasures of life, and they bear no fruit to maturity.

What fell on good ground are those who, having heard the word with the honest and good heart, keep it and bear fruit with perseverance.

The fire, sword, war, are in reality and you understand that the images used by the Being of Light, to explain and express the power of his word, dealing with men completely lost, which continue to work, ignoring all the words that Christ had held previously. He wanted to raise awareness and bring out the man from his lethargy, and he notes with insurance, it is in the presence of the Divine Being, who came to liberate and save it from destruction.

The fire, also a much deeper, because as you know now, God loves men greatly, and fire in this case there is a sense protective, reassuring.

Being of Light said:

Who is near me is near the fire.

Which is far from me, is far from the kingdom.

The action in the case that concerns us, and conducted by the Supreme Being, is to make men understand that this is a behavior, attitudes, impressions of goodness, being right and fair, active, alert, responsive to the evil thoughts that they should reject, through the trials encountered on the path of life, they manage to clean their esse, the spiritual, to consolidate their gains, and to walk with faith and confidence on the road which leads to light.

Then you, lonely and simplified.

They will stand, solitary and simplified.

This sentence of the Being of Light presents the state must reach the spiritual entity at the end of his earthly journey, or better, so move away from the path commonly followed by men, she wisely decided to walk towards which leads to the liberation of being, and who will eventually enter into the celestial world, having attained the state of arousal.

This presupposes that it is definitively rejected the forces of evil and of course there indulge itself, but it is also refined its spiritual essence, and penetrated by adopting the depths of his being the word of God.

To reach the state of solitary and simple, it is essential to establish, by a burning desire to succeed, a philosophy based on the tenets deific, including the renunciation of materialism and the final and complete annihilation, negative impulses that hold spiritual entity imprisoned in his body, and following the path charted by the forces of good that lead to the purification of our spiritual essence, consolidating our achievements, determination to stay the course inevitably lead to the rejection of the carnal envelope, the abolition of waves and negative mass accumulated in the latter and retain the entity blind, and that the entity will inevitably lead to wakefulness.

Voila briefly brushed the path to get there.

Of course, some would say that it is impossible that these are just rubbish and nonsense, and that those who embark on this path to reach wakefulness delude themselves, because it

Nothing of all this, claiming that it is utopia.

We've all heard such statements, and is not a certain sadness that I say to these critics:

You are wrong to think like that because you know nothing of celestial data, even those on the man on the earth plane. What do you know the divine laws, and data materialists who are blind men?

Verily I say unto you, but what God says is true.

Did he not say:

I'll give you what no eye has seen,

What the ear does not hear,

What the hand has not touched

What is not entered the heart of man.

He who seeks will find

To him who knocks on the inside, it opens.

If I confirm the veracity of God, simply because I am currently the witness. Not only do I enjoy this moment of his teaching, but I have the honor to witness their achievements, confirming if necessary, that the Being of Light really gives to that request, and actually opens the door to him who knocks.

I have seen and heard, what can men can see and hear.

The path to the waking state is long, admittedly difficult, but if I succeeded, why not you?

Ultimately, what the state of enlightenment?

That awareness, having followed a path strewn with obstacles, pitfalls to overcome, that represent different events encountered throughout life, our pure spiritual essence canceling out the negative impulses generated by waves and destructive masses accumulated in our bodies, and emerged from the field, that we are spiritual beings.

Separation from the carnal envelope, then occurs.

You therefore access to knowledge unknown. Your vision of events, your perception of things and human behavior has increased, more accurate, more fair. You easily perceive the misjudgements, reasoning, analysis, and attitudes of men. You have a greater reality of human concept, conceptual universes, and can lay claim to new knowledge, seeing and hearing what can not be otherwise. Ultimately, you enter into relationship, joy unspeakable, with the Supreme Being, and become aware of the depth of your relationship with Him.

Yea, verily I say unto you, you experience God. You finally know who he is and where he lives.

All those who wrote, claiming to have reached a state of arousal, and affirms that God does not have lied, because it is not possible to have reached this stage of spiritual evolution, would be total harmony with the Being of Light, and ignore its existence.

I myself, I reached a state of alert, and you said out loud that God IS. Our only I am the witness, but I have the honor to meet him speak, hear, to benefit from his teaching, and serve today as a messenger to men.

Yes verily I say unto you, God really exists and I know. If I dared to say otherwise, I'd be a liar.

What Being of Light told me, I will convey my turn. I do it with great joy, for I fervently hope that you too can see and talk to him.

Being of Light had just said, and men have not understood;

I am the way and life. No one comes to the Father except through me.

Now that you know that Christ was indeed the Being of Light, you understand better why his words are true.

My friends, let us walk together on the road to wakefulness, and allowing us in realizing our real self, our reality, that of spiritual entity, to become lonely and simplified, which are Actually, the original state of spiritual entity, and gives us a precise idea of our origin.

To walk on this path, it is necessary to arm himself with a strong determination to fight evil forces, resistance flawless making every effort to reject them and annihilate them and drives them generate, avoiding to follow the bad advice of the son of perdition who voluntarily want to mislead us, and by striving to accumulate treasures in the celestial universe.

It is necessary to achieve this, know that the benefits we will lure Satan whose work is exclusively on the materialistic plane, ie on land, are of the order of the ephemeral, illusion because limited in time, perish because he can not provide lasting and much less robust, and the happiness you think you know on earth, has nothing to do with that which God promises.

To simplify, I would say at first that the celestial kingdom is composed of several celestial universe, plus ours, the material universe-binary, which is the lowest level in terms of spiritual evolution.

Now we know that the heavenly universe is holy, no one can enter, if not previously refined his spiritual essence, rejecting evil which is evil.

Remember my friends, is why God drove Satan from heaven.

If by chance you did not know, know my friends, we are on earth to learn lessons which, if properly treated, should lead us to the heavenly universe, to the Supreme Being.

The path we must take is unfortunately littered with pitfalls, useful to our development and our spiritual evolution, and includes many lessons to learn, which are very useful to humans, and that should enable it to measure the pros and cons, know right from wrong, know what is

useful from what did not, truth to penetrate and puncture the lie being able to recognize the liar, the computer, the manipulator of those who support, love and transmits knowledge so humble and unselfish.

As such, man must reach them apart, know the benefits they generate or evil, then be faced with various events such as misery, poverty, suffering without succumbing to the effects cause, and reject the impulses that generate the flaws such as envy, desire, lust, and the renunciation of materialism which is illusion and reality masks a fleeting awareness of bliss and liberation of being.

When I refer to the material my friends, I speak mainly of the human body, or vehicle as stated in the Being of Light, the garment is adorned with the spiritual entity incarnated on earth.

On the contrary, for materialism, I refer to transitory actions conducted by humans or sought by the latter, wishing to acquire wealth, greater power, an enviable social position, honors, which actually hold the entity prisoner of spiritual material, with or because of waves and negative mass it has created, and causing destructive effects, make the blind and deaf spiritually speaking, tight to the truth, unable to perceive right from wrong, right from wrong, and ignorant of the divine law cited below:

Everyone who does evil, creating waves and negative mass, which are directed towards a specific person, the latter will inevitably return to those who issued them.

The one result of materialism is to be specifically closed to spiritual data, and those who can differentiate right from wrong, and therefore know the various facets, and to better see their respective effects on the human body and the spiritual essence. On the other hand, it insulates the spiritual entity, enclosed in a straitjacket from which it can very easily get out. She has limited vision of the real world, no longer perceives the reality, ignores the truth. Its environment is limited, nor has any respect for mankind, nor to the ecology. His sense of reasoning is limited content. That's why I talk about blindness.

Materialism, cutting the spiritual entity of all reality, the latter saw his scope and content restricted. She swears, does speak, think, as money, material goods, power, affluence, fomenting mostly warlike actions to obtain them, even going to buy them, even murder. Now my friends, the real world is not ours, and is of a different composition. We are in the material universe-binary, which is only anti room.

We have seen that materialism was a hindrance to spiritual development, but it is unfortunately not alone. We also have defects or poisons, which men do not know the extent of their harmfulness. I named:

Desire, lust.

The urge and desire, are defects that result in humans, the desire to want more, get more, see entertainment even if the trait is legitimate unless it is like the other two at the expense of its neighbor, giving rise to a personal, selfish, greedy and excessive. They increase the pernicious impulses and diminish the sense of proportion. Men who use or who suffer their effects, share more, want everything for themselves, giving rise to greed, and leads inevitably divisive, and away from spirituality.

Desire, envy, greed, humans cause destructive impulses, the effects of which he ignores the scope and result, when he wants to achieve his ends, to the emergence of ideas or bellicose thoughts, cynical and unfair, see loopholes. The scope is obviously broad and extensive, and generally revolves around the materialist realm, whose depths are ephemeral, delusion, perdition.

But the man ignores that. He lives in an environment that he has created, from which he can not escape, and has a limited time, he will suffer necessarily from the sudden backlash, with nothing built productively.

Greed, hate, mistake, ignorance, often pushing the human beings on the path of suffering, pain, mental, psychological and physical, creating home of psychic disturbances including waves and negative mass are points inks, lead to show malice, and therefore the lead on the road to perdition.

As I said, among the lessons we learn, these three figures that defects in reaching the master, to penetrate them, we manage to improve our training ground. For this it is necessary to extract them from the depths of our being, and to expunge from our thoughts.

The total annihilation of primary negative actions caused by envy, desire, lust, ignorance, will strengthen our spiritual essence of major data, related to the resilience of moral and psychic entity, and it offers all the weapons he needed to counter the negative waves and masses from the temptation from people whose desire is clearly our loss.

And finally we have to improve on our earthly journey, the ability to know, further, to penetrate the essence of these defects, and to negate the effects by having mastered first, then our self-control which is characterized by inner peace, erase them, so they affect us more.

Whatever happens, the suffering, pain, misery, envy, desire, lust, will have no affect on you. They allow, by destroying and then reaching a total dedication to cross a threshold, a level that will free us of negative impulses that keep us prisoners and slaves of our bodies.

Our success is achieved by the complete extinction of all these defects of all these poisons, all of these destructive impulses they generate, and this is concentrated in our body, and the final disappearance of adverse effects that pollute our spiritual essence that cause the different statements from poverty, suffering, misery, since it is very difficult to accept, and to be confronted.

By putting all this in place, applying them every day, we will achieve a complete cleansing of our essence.

We must admit that our carnal envelope that plays a fundamental role, and this is certainly not by chance that the Being of Light, we gave it.

Only on earth during our incarnation, and by mastering the principles of primary treatment of our spiritual essence, cited above, the entity can access the celestial spheres.

Our carnal envelope is somehow a catalyst in that it is struck by waves and masses of various sources, including some of the most violent, destructive and harmful as and from the man himself.

Therefore, the latter centralize the accumulate and then send them towards the spiritual entity therein. The entity then suffers the devastating effects of these harmful agents, and loses little by little sense of reality, finds himself locked up for as benchmarks in a matrix, or in a room with closed openings, where it sees no outcome.

The spiritual entity who has not attained a high degree of development, and even fingerprint data materialistic, behave like an amnesiac, identifying with his body, use it blindly and it will send everything it has negative. It will indeed violent and aggressive. This interaction together, is found among people violent, racist, intolerant, full of their own person, to the unbridled pursuit of material goods, financial prosperity.

The human body is to these beings as a screen they refused to cut to reject or remove. They have accumulated so waves and negative mass, they receive the brunt and suffer the pernicious effects they externalize. They are therefore impervious to all moral advice, all truths, and are loathe to hear about the error, or allow them to be wrong.

To succeed in our earthly journey, knowing that we are all spiritual beings and that color is there mainly to help us become aware of this reality. The color or pigmentation covering the carnal envelope that serves as a clothing material in order to evolve on Earth, is also there to allow us to reject any harmful intentions, namely to push our other fellow human beings, or create caste, sub pretext that we, skin color than we are above them.

Those who argue such nonsense, are based on what?

From the moment we know that the human body, is neither more nor less than a garment of flesh and blood, the spiritual entity to be covered to evolve on Earth, we measure all the extent of their ignorance.

From the moment that all these points are established and applied in a state of total detachment and renunciation of self, the spiritual entity will manage to free his spiritual essence of his fleshly envelope and then act as such.

The most difficult step and most important, is to be confronted with negative points cited above, and then solving them by adopting an attitude of calm in a state of complete humility, and succeeding in annihilating all, showing a total abnegation.

The purchase of errors and bad actions only take place on earth during our earthly incarnation, and does that man.

In addition to the steps mentioned above, it is essential to implement it, because it conditions the steady state entity that will live in the spiritual world and heaven help him, then it is still embodied in a fleshly envelope on land, to behave, to behave as compared to itself and in relation to other spiritual beings and celestial bodies. I am willing to be heard constantly bathed in goodness, righteousness, justice, love.

You now know that the spiritual entities such as celestial bodies, have no sex, because the latter concerns only the outward man, whose primary function is to create a body, through the union of a man and a woman, to serve as a garment body to a spiritual entity who has incarnated on earth to live the same lessons.

In the world of celestial entities who operate, behave, behave, and have relationships full of complete affinity. It is therefore imperative to adhere to the precepts, laws, commandments of God, and the applicant for the waking state, inked at the profonte of his being, the love of God.

Therefore, from the steps mentioned above, the applicant initiated the liberation of the spiritual being, must cut off all physical contact with the man or woman, sex is his.

This isolation salutary, and the entity through introspection, to cut the material, and enter the spiritual world, to come into harmony with the principle governing this sphere, as well as the creative source which is the germ . Knowing who she really is, the spiritual entity, really behaves as such, and has naturally more sexual intercourse with someone of the opposite sex. It can therefore be achieved.

Knowing that spiritual entities do not have sex, it is clear that the relationship they have against each other, have nothing to do with those of humans. The context is different, the environment, their aspirations, where they live, have nothing to do with those men, who are still at the embryonic stage of spiritual development.

The spiritual beings living in the celestial world, having attained a high level of development, not only have adapted to the lifestyle of the celestial sphere, but because of their spiritual progress, these are naturally in the divine source governing the celestial realm from the divine essence of the Being of Light, who infuses the soothing waves, and an atmosphere of complete serenity.

The spiritual beings, having attained the state of arousal, are naturally free of all constraints materialists, all desires, all desires and wishes have been washed of their essence, and the accumulation of waves and positive masses, accumulated wealth, which gives them the opportunity to blend naturally into the celestial universe, and to adopt the main principles. The extinction of all drives émisent by the human body is made, the spiritual entity by the physical disruption of the opposite sex, embodies his spiritual progress, and cut the material sphere.

Then comes the final phase, the one Being of Light said, when he says that we should make the two one.

Making the two one is reaching the conscious separation of the spiritual entity of its carnal envelope. Before this stage, man is twofold, (body + spiritual entity) once wakefulness reached, there is more than the spiritual entity. She made the two one, as it is now the UN. The carnal envelope has lost its primacy, whether male or female, its role is more than one vehicle, or clothing. Thus, the male is no longer a man and woman is no longer a woman. Being that it was being reverted to what it has always been a spiritual entity. The two one is made, the entity has reached a state of alert, and no longer belongs to the material sphere, and can say:

I am not of this world.

This final step remains of the purpose, the complete extinction of all the negative points, all drives, all critical sense, of all judgments. The spiritual entity at this stage is left swimming in humility. He released her, a great calm, inner calm, a great kindness and great gentleness. It comes into harmony with the ALL, is "body" with the divine source, and ultimate happiness, is merging with God.

You now know the exact meaning of the phrase of the Being of Light:

They will stand, solitary and simplified.

Many stand outside the door, but it is lonely and simplified which will enter the bridal chamber, (hear the heavenly universe).

What day, the rest of those deaths happen to it?

What day, the new world will he?

Christ answered

What you expect is already come, but you do not know.

To answer the first question asked by the apostles to the being of light, it is essential that you take informed my friends, new data key, which you will better understand.

The man has always believed he was the center of the world, and his universe, at least one to which he belongs, was and still is for him the only one. But not only is it wrong, but he ultimately ignores the truth.

The man with a human body which comprises the elements are identical to those used in the composition of matter, see the earth from whence it came.

To use an allegory, imagine a group of men living on an island in the middle of a vast ocean. They all had children and so on over several generations. Their whole culture was based on the belief uniqueness, I mean, they assumed that they were the only living beings on the planet, see the world. Go tell them, that of the ocean, other land available, on which men live as intelligent than they. Do you think they believe you?

I can not answer the first question, without reference to the celestial kingdom infinite, and consequently to God himself, it being understood that, first of all, who is originally from ALL and all that exists, God, Supreme Being, is in fact EVERYTHING. It is inside and outside of all that exists, and gives the whole, having in itself the vivifying principle, life.

It is the content and the container of all existence, being as a spiritual being Maggiore Original, also the full component of ALL, in its fullness, and thus makes the infinite heavenly kingdom.

Everything that exists is within God, including man.

In my previous work:

God, revelations of the insider track thirteen.

I reveal who is really God.

You know now that God is also the composition of his being, the infinite realm, which is compartmentalized or divided as desired, in seven different worlds including:

Five heavenly universe, each with a level of evolution and different spiritual purity, and live where the angels see heavenly bodies heavenly assistants as I say respectfully, and holy spiritual beings who have left the ground after clean their spiritual essence.

A binary-material universe, where man is changing the planet earth depends, and which is actually double, with one visible to man as it is, and an invisible part, which interpenetrates. And a universe whose level of development is the lowest of all, created by the Being of Light to receive Satan and his fallen angels and the spiritual beings having left the earth, after having committed violent crimes. This universe is also called world of darkness or hell.

I often had to say and write my friends, but the main universe or the real world, not ours, but the kingdom is infinite in its entirety, with main areas of developments, the spiritual regions celestial or heavenly beings live and holy spiritual entities. So the real universe, including all five celestial zones, plus the invisible part of our material universe-binary.

The material universe-changing bit where the man is actually an area of temporary changes in some way, the antechamber of the real world, a region where school must develop all spiritual entities seeking after have learned lessons and clean their spiritual essences, to achieve perfection in order to enter the heavenly universe.

The human and spiritual entity created after the divine essence of the Being of Light, is on earth to complete his apprenticeship, and avoid making the same mistake that Adam and Eve. It is essential and necessary, for his confrontation with the various events encountered on the path of life, to reject evil, while aware of its own reality.

To achieve this it has received from God, clothing specific to the environment where it is and therefore governed by the substance, called human body.

I've found that our material universe-bit was actually double, so we have a visible to humans, and other invisible, the two interpenetrating spheres. The latter is more known to the ancients, or our forefathers, as hell.

Since Adam and Eve were expelled from Paradise, God because of their disobedience, had decided to condemn the attack of the heavenly universe, anxious that paradise and still retains its sanctity, where nothing unclean can penetrate. That is why all spiritual beings having previously lived on earth, and part of the first generation of men has remained locked in the invisible part of our material universe-bit, waiting for the advent of Christ, Being of Light, come to liberate and save mankind, and therefore of course, the spiritual beings trapped deductions from the dead.

Remember my friends, that God placed at the entrance to paradise, to prohibit the entry.

It is written:

And he (God) placed at the east of the Garden of Eden, the cherubim who waved a flaming sword to guard the way to the tree of life.

All spiritual beings embodied in the first generation, from Adam and Eve to the advent of the Being of Light, their dead remained trapped in hell, waiting there, be they also released and saved the same way as those who were still incarnate on earth.

By speaking with them, that Being of Light gave this answer to the apostles.

I have other sheep that are not of this fold, (hear that part of the material universe-bit) ones there, I also have the leads. They hear my voice, and there will be one flock, one shepherd.

Verily, verily I say unto you, The hour is coming and is already come when the dead will hear (the disembodied spiritual beings having left their body) the voice of the son of God, and those who hear will live. Those who have done good will rise to live, but those that have done evil will rise to be condemned.

I am the first and last and the living.

I was dead, and behold I am alive for evermore.

I have the keys of death and Hades.

If I focus my presentation on two essential points, namely that man is nothing but a spiritual entity on the one hand, living in a material world-binary second, it is especially for you lead to better understand what follows.

Our material universe-binary part of the kingdom of heaven universe infinite or infinite, is not really that extreme. I mean, in terms of importance with regard not only to purity but also the degree of change, development or know who is taught, it is located in the periphery, and n ' is connected to the celestial world, by and through its invisible part, by a composition that is very close to that of the celestial universe saint. When its visible part, where the human remains, not only is it very far, but it is somehow the anti-room, waiting room, which must absorb the major premise of namely, spiritual entities incarnated before they can access and this according to their works, good or bad, first in its invisible part, commonly called Hades, which is also called, transition zone, because it that are then directed the spiritual entities according to their works, to be awarded:

The heavenly universe for the best, or the world of darkness for the wicked.

So thanks to the invisible part of our material universe-binary, as access to the holy heavenly universe is possible. Which brings me to clarify that we are somehow the offspring of a great heavenly family, before rejoining the adults, must prove themselves and thus prove that they deserve.

Our material universe is not binary universe principal, and remaining on the lower level in terms of spiritual evolution, and it is logical to assume that any spiritual elevation, of course means to learn all the data on the purification of the spiritual essence, but also all that concerns the mode of evolution of celestial bodies on approaching as much as it may, their life, their sense of reasoning, reporting full affinities that characterize The gift of whether they feel towards each other, calm, control is the serenity they bring, and like them, by avoiding any critical or ruling sterile whose foundations would not focus on the contribution to others, or aid issued to get them to evolve. Goodness is their credo.

We obviously need to improve our attitudes, our mutual relations, put much greater affinity, compassion, trying to give to others and share, then we will not be very far from the celestial bodies.

Remember my friends, that if the spiritual entity on earth to a garment adapted to its medium of existence, I want to hear about his fleshly envelope, it is even in the celestial world, where a body Specific him is also offered.

The portion of the material universe in which we operate binary to the spiritual universe, giving rise to a radical change, this new criteria, new design data.

For this reason, the Being of Light when he addressed the audience who listened, explained: If a man be born again he can not see the kingdom of God.

If a man be born of water and spirit, he can not enter the kingdom of God.

That which is born of the flesh is flesh, and what is born of the Spirit is spirit.

This last sentence refers to man, be binary, consisting of a human body and a spiritual entity, which is linked.

The human body is made of flesh to the earth from which it is drawn, and when he returns. On the contrary, the spiritual entity, is derived from the divine essence of God, in which the Being of Light has placed a spark of life. In the latter, God offers based on works carried out, especially if she chooses well, to enter the kingdom of heaven, and thus obtain eternal life, and thus return to God, hence it is outcome.

To say simply, imagine that the envelope carnal death, became dust, and return to dust, while the spiritual entity, reborn or resurrected in the spiritual world, which constitutes a rebirth. Being of Light to right when he says, that we should well be born again, because only the spiritual entity, has access to the spiritual world of heaven.

It is true that before the advent of the Being of Light among men, the spiritual entities retained enclosed in hell, do not understand why they were there, especially those who had done good and asking God to deliver them, release them so that they receive the promised eternal rest. God whose major aim of freeing all spiritual entities, those in hell as those who are incarnated on earth, at first, softened the existence of the first appointees, asking them to be patient, because their release not long and will be effective with the advent of the Being of Light, which will soon save them all.

Once completed her teaching among men, Being of Light made it clear to the apostles, the New World as expected, had already been implemented since its advent.

But it initially, by its mere presence among men, and the truth delivered to them first, then by his works and his ultimate sacrifice, secondly, that the Being of Light to established on earth, this new world.

Christ did he not tell the apostles that the Kingdom of God already covered the whole earth, but they do not have knowledge without their knowing it.

If men lived before the advent in the darkness, unaware of the truth, the revealed word contained in it, all the heavenly mysteries, all previously unknown data, and provided a better understanding of the events, so they no longer act blindly, and they finally have a way and purpose to their existence. The light was there.

Being of Light by his advent among men was in fact put an end to the first generation, one that was of Adam and Eve when he arrived, then put up a new generation of more enlightened, more aware of the heavenly mysteries, knowing more about the Supreme Being, who started on his accession, and which continues today.

We all belong to this new generation.

So when the apostles asked Christ:

What day, the new world will be?

Being of Light could only reply:

What you expect is already come, but you do not know.

On the question of the apostles:

What day, the rest of those deaths happen to til?

The answer is they actually provided by stage.

First there was the preliminary phase, or by his actions, by his word, by the truths he has issued to men, Being of Light is revealed to them, they know that by putting in place the kingdom infinity, since by its mere presence, it extends in all directions his divine essence and of course his innermost being, setting a new world awaited men, and how to access the infinite heavenly kingdom, and entitled to eternal rest.

Then came the second phase, the most important.

After telling the unbelievers, the deniers;

If you do not believe when I speak to you of earthly things, how will you believe me when I speak of heavenly mysteries.

He went deeper, in more detail with the apostles, and explained that, ultimately, from his rise, he not only would establish a new heaven, but also and especially that from that moment, after released and saved the spiritual entities, and have taken the most deserving with him just after the last trial, the eternal rest would be effective.

If the promise of that eternal rest concerned the apostles primarily, the Being of Light, wanted them to explain the process.

Remember my friends, that God had closed the access door to the world holy, is to open it again, putting in place new rules, new laws divine celestial than Being Light should also change the celestial universe, hence the introduction of essential new heavens.

That is why the Being of Light they held the following language;

There are many mansions in my Father's house.

I go to prepare a place, and when I go and I'll get you ready, then I will come and take you with me.

I am the resurrection and the life. Whoever believes in me will live, even if he dies. And whoever lives and believes in me shall never die.

You will not have gone through the cities of Israel, the son of man comes.

Some of those here do not die, they see the son of man coming in his kingdom.

This second phase is really the most important of all his works, for the Being of Light to not only put in place by the power of his word and the divine principle from its divine essence, a new land, create new heavens, the latter replacing the former, but also and above all liberating and saving the spiritual entities, he proved to men, he held out all its promises. The eternal rest promised is now a reality.

After his achievements in the first time on the planet earth first, and the heavenly universe the other hand, the Being of Light came back as promised, but not as men imagine it still the hardware part of our universe, but in the real world, and the time served on the apostles with the clear aim this time to complete her teaching, in conducting the trial of disembodied spiritual beings, having left their fleshly envelope, and those are concerned, are precisely the God they had served in hell.

The man has not understood that the interest of God does not deal with the body of humans, but its spiritual essence, it is on the spiritual entity that covers everything love. Man does not live in the real world.

That's why I say to men, who would not behave as a spiritual entity they are, however, they have waited in vain in the visible part of the binary material universe they inhabit the return or come Being of Light, it will never happen.

The doomsday they expect there will ever be.

These are my friends, another fact ignored by men, and finally revealed.

At this time, during this return, that the being of light surrounded by angels, put up the last trial, which concerned the spiritual entities of the first generation who were still trapped in the invisible part the binary material universe, known as hell.

Some scholars, analysts and translators have changed the exact meaning given to the word of Christ on the doomsday.

Some have assumed that the ruling would end all life on earth, others have gone into diatribes questionable because based on ignorance, arguing that the famous trial made after the end of the world or a given date and will ring the bell.

In other words, according to these dreamers, life will cease to be, all this is obviously false.

The dogma of doomsday is certainly based on sacred texts and thus interpreting the word of Christ, but also the subject of a hazardous analysis, erroneous and without direct link with the profound and real connection Being of Light.

Obviously, if one refers to the parable of the reaper, Christ gives in this allegory is what really happened since Adam and Eve to his accession, and thus explains that the man in his blindness and his propensity to follow the advice of the prince of darkness rather than useful and enlightened of God, led the entire previous generation to work alongside the road that leads to salvation and light.

This parable of profound meaning and truth, explains what happens, and the follow-up to the generation before his coming among men, who found this to be affiliated with obscurantism.

No descent from Adam and Eve to the contemporary to Christ, could have access to the kingdom, because she was a carrier for a large majority of the seed of evil in all its forms.

At harvest, the owner of the field, asking its workers to pull the weeds first, so it is put into boot and thrown into the fire. Wheat ripe to be harvested first, and then stored in the attic for this purpose. Christ gives the exact meaning of this parable, which belongs to this generation

referenced, which spoke at the trial to proceed through the Angels, the separation of beings of good and evil ones.

These words are even clearer, they are precisely the location of the trial, and the time when it will occur.

The son of man shall send his angels, who cast out of his kingdom, all those who are behind the scandals, which are evil, or iniquity.

For the son of man shall come in the glory of his Father with his angels. Then he will reward each according to his works.

I tell you in truth, few of those here do not die, they see the son of man coming in his kingdom.

I tell you the truth, this generation shall not pass, till all these things.

Now to place the trial of this world, and I when I am lifted up from the earth, will draw all men unto me.

It is time for men, not only awake, but also to understand at last. Remember my friends, we are really spiritual entities, as the field area, the plane of existence most important, is not our material universe binary which owns the land, but the heavenly universe.

We are somehow in the universe basic, imperfect in its fullness, the level of the lowest development, whose importance is less. On the other hand the real life existence majeure occurs, the TSE is still the spiritual saint, part of the kingdom infinity and nowhere else.

That is why it is important to understand that the last trial has already taken place and, from the rise of the Being of Light in the world holy, and concerned the whole generation of Adam and Eve to the contemporary with Christ, which John the Baptist is the last of the line, while remaining the first of the new.

So far in the spiritual universe, the invisible part of our material universe binary, has held the trial said last. Thus ending a generation of imperfect men, blind, wicked, sinful, thieves, murderers.

When you understand my friends, the harvest has already occurred, and that anen of the Being of Light, in fact, been the trigger, but was also giving light that brought hope to men, by opening the doors of the heavenly kingdom infinite hitherto remained closed.

When Being of Light was high, his ascent into the kingdom proves it is at this moment, it came on the clouds, in glory, surrounded by his angels, and that the generation to which I ' have referred and who previously lived in hell he arrived.

The doomsday, because it affected the whole generation collectively corrupt, and ended the backlog behavior, men are blind and ignorant.

The last time trial took place.

The angel then proceeded to sort, separating first the bad guys, they sent into the world of darkness, then apart from the good, all those who have retained their heart, God's covenant. These could go with the Being of Light as he had promised towards the kingdom of heaven, for eternal rest.

Being of Light, was really telling the truth.

Since its advent, the trial is ongoing and affects all men at the end of their life cycles.

Since the elevation of Christ, separating the wheat from the chaff is actually performed. Being of Light that have established new bases, based on the precepts of God, the word of the Supreme Being and the truth.

Therefore, every man is considered accurate at the time he leaves his body at death of the latter, and the trial which is the object, place in the spiritual world, in the transition zone more precisely.

The advent of the Being of Light ended an era imperfect, and has opened another.

Being of Light told the apostles:

The shepherd calls by name the sheep belonging to him, and he leads them out. When he brought out his own sheep, he goes before them, and the sheep follow him because they know his voice.

When life is created in you life you save. If you have no life, no life will kill you. Some Asian religions talk about God in terms of praise, and the time when they describe with amazing precision as close to the truth, other people are still worshiping and serving idols. Hinduism is the first religion to have solved the mystery of God and God approached so close, yet unfortunately remained at the periphery, without seeking to know him better. Other trends have taken over, followed in this by the Egyptians when they through the book of the dead, highlight the continuing life in another form, the continuum occurring in the spiritual world. More recently, Pythagoras founded a spiritual philosophy based on metempsychosis, or transmigration of spiritual entities from one body to another. He had imbibed the elements of his theory in the foundations of the doctrines of Asia, later adopted by the Gnostics who altered.

We have seen above, the starting point of existence, the emergence of the principle or source of life is God himself.

Since its demonstration of nothingness, the Supreme Being possessed in his divine spiritual essence, the creative principle which is concentrated all the data relating to absolute knowledge, and the fountain that also call matrix or vivifying source propagator of LIFE. God is the first living creature of all time, who alone possesses life and was diffuse in all directions within its Being which contains the whole, and therefore it is the one to whom man must of have life, and of course live.

The centerpiece of God, the most important part of his divine essence, is precisely the source invigorating that it alone possesses, and which is somehow divine the spiritual matrix that fills its entire being, and he gives this unique ability to be immortal.

The Supreme Being has the depth of his divine essence, this bubbling spring, this matrix exhilarating from the first moment of its appearance, its emergence from nothingness.

That is why God is the only being able to say that he has in his life, because it is life.

We have seen above, the being of light is very difficult to penetrate, to know, and at the same time, openly, he wants more than anything, we know who he is because he does not hide.

It is visible and invisible to humans, both.

Visible, because as I said, without hiding, he makes himself known to men by showing them a small part of his anatomy, "that they ignore. It is this small portion or part of its Being, that the man known as the visible matter to him, and he called material universe, with himself in it as galaxies, planets, including earth belongs. The land itself and everything in it is part of the "anatomy" of the Almighty, and would in some way, the visible part of its BEING.

That is why the Being of Light was saying;

Split the tree, you will find me. Lift the stone, I'm here.

Invisible, because its divine essence, which is actually his real being, that which is concentrated and gathered all the divine principles which the matrix bracing, has properties other than those we know. As such, as a spiritual being Heavenly Divine, God is invisible to all heavenly beings themselves, although I heard the angels, and more so for spiritual beings we are.

It is also in its spiritual essence of God, that is united, its five performances.

We must humbly admit, that if we want to know and find God, we must go back in time, back to the original source, return to the beginning, and there my friends, God will reveal himself to us because he has never hidden .

It is absolute.

Pure spirit, it can not be represented.

God is the one in whom is concentrated together, all the divine qualities. It is from the first moment of its emergence from nothingness, all the fullness of absolute space, the infinite immensity.

Therefore, nothing existing was initially somewhat disintegrated, evaporated, dissolved, no longer exists, since filled in its entirety by one who is from the beginning, O Lord, the One God. We can then say:

In the beginning was the Lord.

God, Eternal essence and nature is both, the first living being, the One Being Pure Spiritual Entity, is custodian of all the sources or principles propagators of life, truth, knowledge, existence.

God is indeed a Divine Spiritual Entity, but it is also and especially those which have sprung all the particles that gave rise to different celestial regions, aided by the creative principle which is the representation, as we shall see later. Having life in himself, being the life of his divine essence gush all sparks of life that gave birth to celestial beings such as angels, for example, the spiritual beings (men) as well as plants, minerals etc..

His divine essence that filled the entire area, stretching to infinity, it is the vastness of existence itself. It is by whom all things exist, because the WHOLE house, moves in him. It is the total component of everything that exists and lives, as containing within it, while forming and penetrating all things, human and celestial beings included.

God is the container and the contents of ANY.

One of the first qualities of God, if we can talk about that in terms of nobility, remains in the ability of its spiritual essence, to have within it the vivifying source that gives eternity. Having him in life, is essentially life, given that most grants available to God this unique natural, he has also offered not to change, to remain in the state, not to be affected by time.

Stay at the moment, there position, confine them naturally without change one iota, is the unique ability of God, and the five Beings of Light.

It is said of God, it is activated and not activated at once. We can actually say, because these qualifiers unique characteristic and describe some of what it is.

Being heard and we have seen above, that God is at the same time, the container and contents, inside and outside of the cup and dish, or ALL, in the words of Being light, it is also extended to infinity, the volume of infinite space, the living representation. It is existence itself.

It is the active composition of the existence in all its forms, or the source invigorating and creative principle and remain activated. Everything that lives, moves, moving within it. How not to understand that ultimately, God is action and inaction, movement and repose, simplicity and complexity, uniqueness, meaning equivalence, this comes from the composition of his inner self, or we find a part, its essence Spiritual Divine, also known as Holy Spirit, who is actually his real being, and is also appointed by the Being of Light that was revealed to men, infinite realm, symbolizing the static or rest, and other hand, UNION, (who with his divine essence is a single BEING) FIVE Beings of Light, we see the role further, representing the moving part, activating his Divine Being.

The divine essence of God gives it a unique feature is that you can see and hear, over the whole of his being and that, in every sense, in all directions, including in celestial bodies and spiritual, since it is there. Hence the expression:

God knows everything, sees everything and hears everything.

He is immanent, transcendent and immutable.

I pause for you to understand my friends, that as a spiritual entity created by God in his image, that is to say the same to him, Being of Light gives our spiritual essence, the same characteristics as him.

So our spiritual essence, is the same as that of God, see and hear so multidirectional. But alas our fleshly envelope prevents us from being aware.

God can see, hear and inter act with many celestial beings or spiritual beings together, and through the union of its remaining five performances that are Beings of Light. He can communicate, meet, teach one or several people, one or several men at the same time.

Because EVERYTHING he can act and inter act everywhere at once.

God communicates with men, especially those who walk on the path of light that reached the state of arousal, by transfiguring. It acts through one of its five entities of light, to breathe in the essence of spiritual entities, the word of truth, wisdom, openness, knowledge of heavenly mysteries, knowledge on the Holy Spirit.

Thus God, himself one of the five Beings of Light, made me know not only the divine mystery, but also my home, allowing me to better understand and know with certainty that I am from Source invigorating that it is in him, and I left him.

The five trees referred to Christ, are actually five components of the divine essence of the Holy Spirit, the First, the One and Only True God.

God is One, and his divine essence is a union of five Beings of Light in an ONLY DIVINE BEING.

If God is One and the same time, a union of five Beings of Light in one, it should be understood, that itself is also one of the five.

The five Beings of Light, and the role they play under the influence or control decisions of the divine essence Major.

1 - It is the first and the source of ALL. It is the component of ALL, the first principle, the container and the contents of all things, including mankind.

2 - The Word creator of all things. It is the active force of God. He is the man known by the word of Christ. He is the creative principle.

3 - The Spirit of Truth, also called by Christ, the Comforter. He teaches all things, and reminds the spiritual beings, everything that Christ said and taught. It shows people the truth. It is also the one who brings forward evidence and data relating to sin, evil in all its forms, justice, the trial. He makes known the mysteries of heaven.

4 - He is the owner, the owner and the propagator of the germ or spark of life that allows everything, including human life.

5 - He is the owner and holder of wisdom, knowledge, science, because it is the principle source holder. He is the master of wisdom, the lord of justice, the master of time, morality, ethics. He is LOVE and GOODNESS.

There was the beginning God, we also respectfully call upon the Holy Spirit, Spiritual Entity Only Divine.

The first moments have been utilized to realize fully the Lord wanted to pursue his creative and innovative, adding him since he was now all of the existing space, regions or celestial universe, and celestial bodies that we call angels.

But for this it needed to emerge from its divine essence, one of five Beings of Light, the creative principle.

So to fill the emptiness of all existence of anything which is the component, the Lord, whose essence is divine union of five spirits in one, five or divine sources, each with specific skills, give their unity in an extraordinary power to the Divine Being, use one of its sources or divine principles, to train him as a Being of Light, which is itself the representation.

It is as if the Lord God had somehow split or self generated again, so that the double divine act, be and become the verb, the creator God.

God has therefore again somehow, from one of the five divine sources, self created, giving his new representation, his new self, a new spiritual form with other skills, always in his spiritual essence the same qualities as the remaining thread, the active principle and creator of the divine source plant.

The first Being of Light which is God himself, is best known men as the verb, the Creator of all things, words.

It is written:

In the beginning was the Word and the Word was with God and the Word was God. It was in the beginning with God. All things were made through Him, and nothing has been done has been done without it. In him was life, and life was the light of men.

Under this new spiritual form, the first Being of Light, God proceeded to create the celestial universe, places of celestial bodies, the angels and the spiritual entities to whom he will later carnal envelope, the men.

When life is created in you life you save. If you have no life, no life will kill you.

You know now that we were created or begotten by God, and he wished for love we offer the same features as it is the importance that leads us. Our spiritual essence is derived from his, and has all the properties. God is the owner and holder of the life-giving source, is indeed life itself, he has delved into a seed and placed in our spiritual essence, so that we can in turn have life, and live.

If the human level, this is done at the union of parents, when they pass through the sperm and ovum to the child, their genes. The latter shall then receive the information, the characteristics of its parents.

There is much the same thing, except that the scene is played at the spiritual level. Therefore, as a spiritual entity, we are like our Father God.

If we follow the chronology, we find that God has created in the first angels, to whom he conveyed specific properties, differentiating them from us, and offering an important role, that of celestial wizard. Thus they are involved with men when it comes to forward a recent, data divine, or to place the entity in a spiritual body (the baby being created in the belly of the mother) when he came on earth. As you see, this important role, their vests.

Then God created us, thinking it is love, goodness, righteousness, justice and peace, that all his creatures, would act the same.

But soon, alas, a revolt fomented by one of the heavenly beings, and the first of them, because God had placed at their head, (I named Satan and the devil) the latter 's thought is allowed to bypass the authority of the Supreme Being, thinking out of ignorance, he could assume the same privileges as the Being of Light, up wanting to play this role, or defer all decisions and wishes of the Supreme Being. This being unclean, even went up to counter the aspirations, or amend all decisions and creative works of God. Satan really does not know God, ignorant of this fact, it evolved like other celestial beings, in the Divine Being.

God does not malice, can not allow this troublemaker from engaging in the libertarian tendencies that would bring what was already the case, alas, an upheaval. Satan has managed to rally to his cause of other angels, led in the celestial world, disorder, disorders, and its negative actions, created waves and negative mass began to seriously pollute the heavenly universe. He could not accept the love God has for the spiritual entities, Adam and Eve, and he gave them importance.

Therefore, while Satan has lied to Adam and Eve into believing wrongly that they would not die if they ate the forbidden fruit, which symbolized the end, knowing that no control would create as you know not inconsistent, suffering, etc. disorders. at the author and his entourage, God made clear to our first parents, and therefore a fortiori to those whom he said was true. What is now the father or mother who does not explain to her child what to do or not do, or would not understand her child, that the acts or decisions uncontrolled, can lead to disastrous consequences for himself and his entourage. And ultimately, if the child does not obey, what the parent is not punished for his own good. ?

If the Being of Light gave us the seed of life, we do not (and that Satan was careful to say it was Adam and Eve, and has the same opportunity to men, that it still leads to destruction) consciousness or control, and do not always have, because it is conditioned on our behavior. We will keep this germ of life forever, if we work as God wants for our own good, by purifying our spiritual essence, is the condition sine qua non, because eventually we will return to the endless kingdom to God, so we melt it, and then enjoy the rest and thus eternal life.

It is a basic understanding at this level, and at that precise moment, is that the Being of Light to always act from the beginning and speak with honesty, with justice and truth. His actions and intentions have always been focused on happiness, well being, narrowly against people whom he addressed.

Therefore, the germ of life he had offered and placed in the spiritual essence of celestial beings, angels, or spiritual beings, men, was a gift in perpetuity. But by their disobedience, Adam and Eve, just as Satan and his fallen angels, have caused this break in the conditional. This is a result of this disobedience, that Being of Light created the material universe bit, and placed our first parents, giving them a body adapted to their new environment, and providing the latter, a spark life whose duration is limited in time.

As you understand, God has given us a seed of life temporarily, for us to win forever.

It will be produced in us, that is to say completely forever, if we work as God himself, in rejecting the evil in all its forms, and choosing good.

There are two types of sparks or seeds of life.

God, giving importance to celestial beings, angels and spiritual beings, men, placed in their spiritual essence, a germ of life, whose term has no limit, because from the source bracing, which is the sole owner. His dearest wish is that we all looked the same.

On the contrary, he instructed the angels to be placed in the fleshly envelope, a spark of life, whose lifetime is limited in time. This is done as follows.

While the mother makes the creation of a body in his stomach, whose foundations are based on the genes of both the mother herself, and the biological father on earth, the angels are preparing a spiritual entity to incarnate, and that the human body is preparing for.

From the fourth month of pregnancy, whereas almost all data are collected, the angels carry out the implementation of the spiritual entity, having placed first in the carnal envelope, a spark of life that gives life to human body. This addition causes at this point, the first movements of the baby.

For this reason, the carnal envelope, from the earth, only plays the role of clothing or vehicle for the spiritual entity who has incarnated on earth.

The spark of life that is placed by the angels at the location of the entity, a limited life time, and packed with lessons and tests that must absorb the spiritual entity.

After the appointed time which God alone knows the time, the spark of life is withdrawn by the angels and the human body is found dead, he dies. This man calls death. The spiritual entity has no choice but to leave this empty shell, inert, to go in the transition zone to be considered.

The germ of life that the spiritual entity has in its spiritual essence, is like you have just seen, an entirely different nature from the spark of life placed in the fleshly envelope.

God is right when he warned the men in these terms:

You must not eat from the tree of knowledge of good and evil, for when you eat of it you shall surely die.

If the man is there, it's because of the lie of Satan, who deceived Adam and Eve is careful not to tell them the whole truth, and above all, that God was right. The man does it not the same as our parents by obeying this being filthy. ?

Our first parents were like children who know nothing and know nothing. It was therefore no question of the Being of Light, to help them grow slowly, and especially to ensure they do not behave like the devil, which essentially seeks to overturn the established order, and loss of entities spiritual.

You know the rest. I repeat emphatically, God was right.

The truth my friends, it's time you knew, finally, is to do good, to respect and apply the word of God, because when the spiritual entity leaves his body at his death, if it has whatever God wants, Being of Light in the celestial universe, he offers eternal life.

Christ said:

Whoever follows me will never walk in darkness but will have the light of life.

Life is the light of men.

He who endures to the end will be saved.

Come unto me all ye who are weary and burdened, and I will give you rest. You will find rest for your souls.

If you would enter life, keep the commandments.

You who are blessed by God, inherit the kingdom prepared for you from the foundation of the world.

Remember my friends, we do not live in our true home, and we do not find ourselves in our true country.

If we properly apply the precepts, ordinances, commandments of God, finally rejecting the evil, and especially by not paying the blood then the death of our fleshly envelope, we find ourselves in the celestial universe, and our Father Heaven take us with him, and then we will forever live. We will forever live in the real world, one that is in the infinite heavenly kingdom.

Contrary to spiritual entities who have access to the heavenly world, because of their good works, which were previously cleaned their spiritual essence, all those who have chosen the path of ignorance, malice pouring the blood, excessive materialism, or by searching the

earthly riches rather than useful and beneficial to the celestial sphere, which does not perish, all these entities will be entrenched and will never enter the celestial universe, let alone in the infinite realm .

If the first death on the human body, causing a rupture of fact, requiring as it does not expect the spiritual entity to leave the latter for its evil deeds, will experience the second death, the real there.

Not only does it will not enter the kingdom of heaven, but it will be sent into the world of darkness, or her life is finally removed, or for an indefinite time, depending on the crimes committed.

It is written;

You the wicked, cursed, go into the eternal fire which has been prepared for the devil and his angels.

What shall it profit a man to gain the whole world if he loses his soul?

The unprofitable servant cast into the outer darkness where there shall be weeping and gnashing of teeth.

Regarding the world of darkness, I would say to those who have chosen the path of evil by making the blood, for example, monstrous act, offense if any, of preventing a spiritual entity of the possibility that was offered to wash her dress, that is to say, to purify its spiritual essence, save carefully they may be, or what will certainly happen to them after the death of their bodies.

When a spiritual entity leaves its carnal envelope the death of the latter, it goes automatically into the invisible part of our material universe binary, which is also called transition zone.

This area is a place of convergence of spiritual entities who left the earth. They are received by angels who, according to how they behaved during their earthly journey, the guide and lead them to the appropriate destination. Of course, they will pass prior to trial to account for their actions.

As you now know, the angels were commissioned to the Being of Light, after the spiritual entities have been considered, to guide and direct them to the celestial world for those who deserve, and that God will eternal happiness. The spiritual entity undergoes a transmutation of his spiritual essence, which is the second birth, and it was during this divine operation, as the Supreme Being implanted into the essence of the spiritual entity, and this time permanently, for eternity, the germ of life.

The spiritual entity has been reached a plateau, is such an angel, and now lives in the heavenly kingdom forever to eternity with God the Father in an ineffable happiness.

The others, all those murderous, greedy, who have experienced the hatred of their brother and sister human beings, they not only saw the dead land, that of their fleshly envelope, which was to her at a fateful moment traumatic rupture because of their strong inking in materialism, but they felt the time was an indescribable fear, knowing they would fall into an unknown world, they measured only the effects and risks they incur. At this moment, they know they will stand trial, and that the sentence will be terrible. They will inevitably experience the second death.

They are then, and only at that moment that something occurs, which according to their poor work their evil will be terrible for them. They now know that the angels guide to the world of darkness, and will for the occasion, they take away, take away the seed of life. They will experience the second death that is real and will be locked, chained with Satan and his fallen angels in the dark for a thousand years, see for eternity.

The door to the world of darkness will be sealed.

Blessed are they, those who have been persecuted even in their heart, those have been the Father in truth. Blessed are those who are hungry, they will be filled.

Blessed are the poor, the kingdom of heaven belongs to you.

Blessed are you when men hate you, when they persecute you, nobody will find where you are not persecuted.

Reincarnation is a fact accepted by the various Asian religions that advocate, among others, in their mystical philosophy, the law of karma determines the conditions of life know the applicant at a possible revival. This law states that the actions positive or negative result in penalties suffered or will suffer any man in this life below, or at the next, whose aim is precisely to bring human beings to repent to change its behavior if it does not know the horrors of life.

Conversely, any positive act, lead man on the path to happiness and liberation of his being, to bring human beings to be free from materialism, and to put an end to the series of incarnation detain the prisoner of this world.

Many people belonging to monotheistic religions that deny reincarnation, arguing that this figure is pure invention, arbitrary and baseless.

Let us take a moment what the Being of Light told the apostles, when they asked him who was John the Baptist.

But before that, when Christ asked them what the people said to him, the apostles answered; The people said you'd be John the Baptist, others Elijah, others that the ancient prophets has raised (reincarnated).

The disciples laid to Being of Light the next question.

Why do the scribes say that Elijah must first come?

Being of Light replied;

It is true that Elijah must come, and prepare everything. But I say unto you that Elias is already come, and they have not acknowledged.

It is that which is written;

Behold, I send my messenger before thy face.

He (John the Baptist) is the Elijah who was to come.

Being of Light and made them understand that if reincarnation was not systematic, not concerning all spiritual entities, he was however circumstances where it was needed;

Is to publicize new knowledge to a spiritual entity whose previous life was a failure.

Or to remind a spiritual entity regulations, new data relating to real existence, and thus back on the right path, one that leads to salvation.

Or as John the Baptist came as such a messenger sent by God to prepare the arrival of the Being of Light.

Either this is the case for the vast majority of men, help them have had a mixed past life, because not based on the word of God, who is skeptical, having developed an atheist philosophy but who However, not evil. To these spiritual beings, reincarnation is an additional chance offered by God to help them work this time in the right direction for their release and to bring them not only to explore and find God, which must be Indeed, the focus of their research and action, but also by releasing the material, reaching to leave this world for the heavenly universe, and obtain eternal life promised by God.

Remember my friends, no one can enter the heavenly world, in the heavenly kingdom and therefore know the Supreme Being, he does not seek God first, he did not love sincerely, and if he does not reject totally and permanently the forces of evil.

For no one can enter the kingdom of heaven infinite, that God, being infinite kingdom.

If I mentioned above in karma, because contrary to a commonly accepted and transported by a philosophical movement, it is not solely or exclusively acts, actions, works previously

committed, which lead to factoring revival of the spiritual entity, and would not only retain the clevis that against her will in this material universe binary.

If we refer to About conveyed by the masters of this philosophy, the law of karma would result in the spiritual entity who had a turbulent past life, as depicted above, or who have done evil, rebirth whose life course would fraught with pitfalls. She will know the suffering and misery.

They also claim, as that would have focused his life on the property, but without achieving the liberation and purification of inner self, by adopting an ascetic life would be reincarnated as it would have had a previous life inactive, non-constructive. But it will be reborn to her having a life course much better than the last, almost marked the path, and where all data relating to the truth so recommended.

Admittedly, that knowledge offered by these masters of wisdom, is singularly lacking in reality and truth, as incomplete. If the data above are accurate, he missing, precisely the most important.

It is clear that the men, that all pain, all suffering, the misery and poverty, are not negative statements placed there by chance (in terms of spirituality, luck does not exist) or be due to karma, but result from a specific path to bring the spiritual entity to penetrate know she can find, discover, learn, master, assimilate, and annihilate if she is facing. These are spots or more accurately tests placed there on the road of life, to verify and monitor the capacity and ability of the body to cope, to enter fully, to know full data, while being able to fly over the term of the cross without being affected, and especially to establish an attitude and behavior, a state of mind or conspicuous by their absence, while critical, and any trial.

We must remove the criticism and judgments in respect of anyone, for any reason whatsoever. The final point is to annihilate them (poverty, misery, suffering, pain) and to reach a total abnegation of either, in all humility, without charges.

It goes without saying that the subject, the spiritual entity who follow this path, this path will renew under duress, because other tests will be presented to him as the rocks among which we find;

The evil in all its forms, malice, hatred, envy, desire, lust, materialism.

It will also solve all, destroying the well.

What I want you to understand my friends, is that all these dangers are really events, whose real aim is to bring the spiritual entity to achieve a clean his spiritual essence, to separate into consciousness material, and achieve a state of alert, knowing who we really are, and finally acting spiritual being.

The spiritual entity, then access to knowledge unknown. As you understand, all these difficulties men have nothing to do with karma, but rather to help our candidate likely to wakefulness, namely that it is aware and where he goes.

The spiritual entity that has succeeded, put an end to the series of incarnation, will be released from the material, the material universe bit, and this time will be reborn in the heavenly universe.

Finally, knowing that God is in the finding, it can melt into him. She said then;

I am in the Father and the Father is in me.

This development made to tell you my friends, if you are in this case, be sure you are at the highest level of spiritual elevation, to the extent you are those who respect and strictly apply the precepts of God.

In terms of spiritual elevation, and if we refer to scale degrees, the spiritual entity that falls under the category of poor, destitute, who suffer the most, is on track, on the last straight line and meet the tests that will help consolidate its achievements, to monitor its ability to resist temptation, not to make the wrong done him, and his ability to negate all effects and negative

impulses , generated and disseminated by malice, and all from the destructive actions of humans.

That's why I say to men, women, spiritual entities par excellence, do not complain, because the contrary, you are down the road, just outside the door which gives access to the universe Heavenly. The trials that are proposed, and that you will overcome and resolve you will get the key that will give you the opportunity to open it. Your liberation is near, do not fall into the trap set by Satan and the children of perdition, who will make every effort to get you to react to these harsh living conditions, they will tell you to complain to initiate violent actions, aggressive, you nuirons and stop your spiritual growth.

Do not follow the pernicious example of those men who say you have an attitude or a passive, and that leads you on the path of inactivity intellectual, physical or psychological, for then you risk, as spiritual entity, you find yourself trapped in matter, that is to say in your fleshly envelope, the latter by the waves and negative mass accumulated, you dive into a deep lethargy which will prevent you from arguing with objectivity, react with discernment, identify good from bad, good from evil, the useful from the useless, and therefore you have to be spiritual you are. You shall be slave of your body, and not vice versa, which is the main purpose to lead you to liberation.

That is why, Being of Light asks people to work, because that is how we alert our psyche and our ability to reject evil. Be active my friends, have your mind constantly on the alert, and know that your condition of poverty, misery, persecution, is one asset that you have no idea. Verily I say unto you my friends, the poor, the destitute, you who are hungry, cold, you who have lost everything, you who are suffering, who are rejected, persecuted, hated, reviled, rejected, regarded with contempt, which you are the object of indifference, which you are regarded as negligible, DO NOT FEAR, walk with God because he knows your situation and experiences. You're on the right path, one that leads to the liberation of the spiritual being, resist, stand firm, and above all be good, right, right, reject malice, resentment, and your heavenly Father will reward you.

Do not be envious of those who have wealth on this planet, all this var is actually fleeting and perishable.

Contrary to what you may think, subconsciously, this is precisely they who envy you because you are in possession of data that they have not spiritual, you have a generous heart, a spiritual wealth that they don ' almost never reach.

It is written:

Do not worry about the morning the evening or at night in the morning, what you will wear. Ask God humbly, lovingly, and he will give.

Happy is he who has been tempted, he took in life (in God).

Blessed are you when men hate you, when they persecute you, nobody will find where you are not persecuted.

Contrary to what may think the vast majority of men, not by withdrawing from the human movement, living in Hermite, cut off from the active world, that we will succeed more easily to spiritual liberation.

You often read the writings of men who were removed from their community to live in caves or in enclosed spaces. They want the isolation, alone, to implement the data on the mystical philosophy, arguing that only through meditation and the search for inner self, we discover, penetrate and get answers to hidden mysteries, and the rejection of materialism surrounding himself with poverty and suffering instead of existence, they can reach a state of arousal.

That's right, but not enough.

If the Hermits, applicants to the state of arousal and therefore the release of their Being his fleshly envelope and obviously the material universe binary reach a part of their goal, they

lack the essential ability to counter, to fight, to reject and destroy all the forces of evil, which not only they did not know the causes for data not to be impressed, since they almost never encountered, but also to solve the problems posed by a rock or a test, it must necessarily be absorbed or have dissected. How in these conditions, can they measure their resilience, and annihilate all destructive effects, engendered all these pitfalls. Tests prove their usefulness. This is not reclusive, they will succeed.

These two phases are needed to know to enter for anyone who wants to enter the kingdom of heaven.

It is written;

Blessed are you poor, for the kingdom of heaven belongs to you.

No one can enter the kingdom of heaven infinite as God.

No one can go to the Father except through me. I am the way and life.

I am the path to light.

The sentences quoted above, make clear that nobody can enter the heavenly world, if not seeking God first, if not primarily trying to better know and understand why it is so hard, love to help people out of its lethargy of his confinement, his blindness, and its hardness.

Now that you know who is really God, you easily understand why it is a natural gateway to the realm of infinity, the path that leads to the shepherd who guides, teaches, advice, cares and protects his sheep. They specify the various procedures and rules for data applications on the truth, that find the way and safe discharge which leads to the Father, and how.

God is hope, salvation, light and remains home to all spiritual beings who deserved rest and eternal life.

Not only because they are included in the book of life they are entitled, but also and especially because very soon, they wanted to penetrate the mysteries of heaven, look better and get to know their true God the Father and of course love, but also wanted to deepen all data relating to truth, in departing permanently from the destructive philosophy conveyed by the foul Satan.

I repeat again, anyone who wants to enter the heavenly world, must know that this is possible only on condition, to engage in research of the Supreme Being. That is, the cinema qua non condition, he asked about who he really is, it measures the centrality of God in terms of infinite and heavenly kingdom against spiritual entities. The man must naturally love sincerely, deeply, and knowing its qualities, try to copy it, imitate it and why not like him. Obviously a son who loves his father, he does not endeavor to follow his example, and like him, definitively reject all forces of evil.

The heavenly kingdom infinite universe containing several celestial, holy, and healthy from all impurity. No waves and negative mass can not penetrate, and of course, still less any Being who worked for the evil and shed blood.

Therefore the spiritual entity that wishes to enter the kingdom of heaven infinite, must above all become pure by purging beforehand its spiritual essence. Certainly if all the hardships faced by men throughout their life cycle land can be achieved, the Being of Light by his works and his example has shown how to do it, and by his actions, signified by the symbolic gesture, the ideal behavior to adopt.

Remember my friends, day or Being of Light has gathered his apostles, and washing their feet, hands and head.

That day, he gave many lessons, he the first and the last, the Master, it all, knowledge, righteousness and justice, goodness and purity, without him the task has been little before them, so they know that the pride and vanity lead to spiritual entities to perdition. The symbolic gestures he made, are both signs of purification leading spiritual entity to think it should necessarily be humble and pure to enter the kingdom of heaven and live there forever, but that humility and desire to serve others selflessly, without ulterior motive in not wanting anything in return, do small, are points of strong support.

These actions made vital, the spiritual entity follows a cycle of earthly life changing, allowing it to enter the tabernacle in the sanctuary, the holy of holies, the secret place the most intimate and pure I 'Divine Being. It therefore comes in God, and merges with it.

It is this secret place, hidden, known only holy beings, which has often alluded Christ in these terms.

How this Being that is, can he live this nothingness.

Blessed are you who suffer because no one will find the place or you'll never be.

The spiritual entity changes its location, the material universe binary or she lived so far, nothing but a bad memory, and first enters the transition zone, then continues its journey towards the heavenly spheres higher.

At that time, the Supreme Being the home and took her under his wing and offered him the germ of life for eternity.

The spiritual entity that is at the origin after God returns, this time permanently, and will no longer faced the horrors of the planet earth.

It is written:

The heavens and the earth before you curl, the living from the living (spiritual entity after the Supreme Being of Light) will know neither fear nor death.

Since the beginning, and more precisely when God spoke to men, beginning with Adam and Eve, then Noah, Abraham, Moses and all the prophets who followed them, all except our first parents, sought to better known, were friendly towards him, obedient and happy to practice the works he asked them to perform, or transmit his word to men.

It is true that they had at that time many gaps, and their knowledge of the Divine Being was virtually nonexistent. But they had this for them is that they were open to God, learning and teaching, willing to learn, more, better know, serve, be faithful, obedient as a loving son, to intercede to turn in his favor with men, they wanted to humbly out of the blindness.

Their goal was obeying him, receive his teachings, to penetrate the truth they were the first to enter, then met him, know him better and wish as Moses had repeatedly seen.

Who did it more fantastic, since it is one of the few humans to know God, to know who he is, to have penetrated through him at once, the truth and the heavenly mysteries, as desired we eagerly approach him, and given the love we feel for it, hope to see and of course, live with him.

Therefore, Moses and the prophets, had only one desire, faithfully and receive his instructions carefully, his teaching, understanding and penetrating his word, so that they in turn can lead people on the path, that of spiritual evolution, and thus help them not only out of their apathy, their lethargy, but the darkness in which they are immersed. This was incidentally, the primary purpose of the Supreme Being.

Men at that time, as now however, unaware of the laws, rules of morality, precepts and commandments that govern daily life and relationships between men and determine their fate, much less data on terrestrial and celestial mysteries.

Do not talk about God, they know nothing.

Thus most of the time when the wisdom of their teachers spoke of the Being of Light, they understood nothing, largely because they were locked in their ignorance, wandering aimlessly, with no real objective and accurate unable to make a sensible decision, and questioned them;

But whom do they speak?

Who is really God?

Where does he?

How can we go to him?

Since the beginning, God has ceased to speak the truth to men, not hiding nothing and revealing everything. Not only did he never concealed, but he always made every effort to do so, multiplying contacts with the prophets, correcting errors or omissions which they were often the perpetrators.

Here is an example of the criticisms that God made them.

The priests did not say:

Where is the LORD?

The custodians of the law knew me not.

The pastors I have been unfaithful.

The prophets prophesied by Baal.

They went after those who are of no help. The truth has disappeared, she withdrew from their mouths.

Therefore God has often lectured when omitted to tell the whole truth to men, or when they allowed not only to change direction, but not to reveal the entirety of that they had orders to report.

If God did this was mainly because he insisted that the prophets make known the truth to men, without omitting anything, this for the good of them, for their development and spiritual evolution, but also to they may better know him, they know who he is, where it is and how to reach him. The difficulty encountered God in the beginning, came from the ignorance of men, their pride, their vanity, their adequacy, they are confident of having penetrated the whole truth and hold the keys of knowledge.

But their sense of reasoning is limited, and their ability to analyze data celestial nonexistent, people have trouble recognizing even now that their own boundless love, the cause to deny the evidence or assess the truth and reality, which led them simply by virtue of their lack of knowledge of celestial data, to say that all ideas or truths conveyed from the Being of Light and consequently its representatives are just nonsense.

You understand my friends, if you want to send a specific instruction, to know the truth, or reveal information unknown to your child by example, you are obliged to start with the basic foundation of knowledge, the beginnings of 'Learning before going further. God is found in this case. We're still.

The men, unable to pierce the exact meaning of his words, unable to understand, especially as they transpose the terms materialistic thereby have enormous difficulties to perceive the real significance.

Fortunately, when the Being of Light came among men, his first task was to correct some misinterpretations of writing and therefore the word of God, then be able mainly to the apostles to receive, many truths, and the mysteries of order materialistic, but especially heavenly. The men were therefore all the answers to their questions.

Now that we know God, it is easy to find the path to him, if not being dragged or seduced by the bellicose philosophy of Satan, who wants to accurately our loss. I already had to tell you my friends, but the Being of Light is the content and context of ALL, ie, it is to use a real image, the main house and unique, which is the kingdom of heaven infinity, while at the same time, the Master places.

Remember my friends, words of the Being of Light to his apostles.

There are many mansions (several celestial world) in my Father's house. If it was not, I have told you.

You know where I go, and you know the path.

God is the House that contains the ALL, it is owned whole, containing within its many mansions. He is the DOOR, the owner of any shepherd the sheep and what it contains, and who owns the sheep we are. He is holy and the desire that the kingdom is also is the reason, no being can enter, if not previously washed her dress in the words of Christ, that is ie, pure spiritual essence.

The celestial kingdom is where the Being of Light, and all spiritual beings and holy celestial beings such as angels, is free of waves and negative mass, because the evil in all its forms is not.

The spiritual entities who wish to enter must first, respect and apply the word of God, will resonate and be in total harmony with God. In other words, they must seek to resemble him in every way, as would a child who deeply loves his father.

Like, means to be;

Well, just, right, compassionate, humble, not bear any criticism or trial in respect of anyone who is hating evil in all its forms, especially those who engage in cruelty or shed blood, is to reject the evil, lying is selflessly seek the happiness of others is like trying to serve others rather than to be or even is to reject materialism and not seek to acquire any treasures on earth.

The main reason all this is that the kingdom of infinity is a home made pure, holy and free from all impurity. The people who live there, must be in harmony and develop a natural philosophy déitique. They all have the same behavior, same attitude, same vision, ideals and aspirations, the same thoughts focused on the property, so that relationships and contacts that they have towards each other, are always harmonious, marked affinity, mutual respect, kindness, sharing and mutual exchange and spontaneous, caring, dedication, or donation and of course, love.

The world or heavenly paradise as the means men, is so made that all beings who live there, can live happily in an atmosphere of absolute serenity unknown on earth, all together in peace for eternity.

It is the hope that the Supreme Being has issued since the beginning.

You understand better now why the Being of Light is that we entered, respected and applied his word, because it is the light that illuminates the path that will work with insurance the spiritual entity, which will then it is in God and God in it. This word is the same time, the base, the solid foundation on which to base to build our future.

You also understand much better why the villain, the murderer, the greedy, the greedy, the envious, the crook, a liar, one that diverts people from the path of truth, as did his father Satan can not enter the divine kingdom.

Some say that the right behavior, attitude perfect celestial beings and spiritual beings living saints in the heavenly kingdom depicted above does not exist or is not easily attainable. I tell them simply this;

Just because you can not do, or are unable through weakness, because incompetent to manage your negative impulses, or attraction to materialism, or because you can not resist the forces of evil , nobody can. The proof, see for example the sacred spiritual entities, they are well received by them, why not you.

Remember my friends, we are all spiritual beings. Also as we have a fleshly envelope on land, once we find ourselves in the celestial universe, God will give us there too, a body adapted to the environment heavenly, or only may enter the holy spiritual beings, because is their natural home, the one that God has prepared the foundation of the world, and is now a reality.

It is written;

God will dwell with them, and they shall be His people, and God himself will be with them.

He will wipe every tear from their eyes and death will be no more. There will be no more mourning or crying or pain, for the former things have disappeared.

To the thirsty I will give the source of the water of life.

He who overcomes shall inherit all things.

In the holy city, (the heavenly kingdom infinity) there is no temple, because the Lord God Almighty is its temple.

The city has no need of sun or moon to shine, for the glory of God illuminates.

Its doors are shut by day, because here there will be no night.

In the middle of the town square and on both banks of the river, there is a tree of life.

Blessed are those who wash their robes in order to qualify for the tree of life, and enter the city.

Be careful how you listen, because we give to that, but one that has not be taken away even what he thinks he has.

We currently live in a world where men of power, whether multinational entrepreneur, politician, religious leader or community leader, who to establish their authority, obtain contracts or concessions, a position of better decision-maker paid or EPR, has achieved a moral and religious legitimacy, do not hesitate to outrageously discredit an opponent or competitor, uttering or conveying here and there, make false statements to defraud, to cheat, bribe, to steal, to depart without shame to see him assassinated.

They have only one desire, everything back to them, get everything for themselves, not shrinking from any method or unlawful means to achieve it, leaving only crumbs for others. Individualism among other things, they are evidence, combined with bellicose ideas they feed related to the designs they orchestrate or dishonest cause, but that they do not care, dissension and clashes of such magnitude and such a disaster on the human, professional, social and spiritual, as when they were asked to take responsibility and accountability for their actions, they're defaulting with ignominy, as Pilate did. They wash their hands emerging from their responsibility and of the effects, minimizing the consequences.

These men do not seek to repair their mistakes, the better, they usually ignore the scope and focus are all of the disaster on the other.

The most distressing about all this is that among people who listen and follow them in achieving their project unfair, many people are, convinced that the statements made by these makers disbelievers, hypocrites and cynics are honest, frank, loyal, and who sincerely believe that their real purpose is the pursuit of welfare, well-being, improvement of lifestyle of the people, and they are animated by the will, the amend their fate or at least their life in every way.

Various factors, we have already mentioned, lead man to show indifference, intolerance towards his fellow man, especially toward the needy, the weak of mind, rejected, excluded, left account, the abandoned, the outcasts, the despised, for which they, feel nothing but contempt.

The greed, the ambition, the blind and unbridled pursuit of profit, the taste of excessive authority and what it entails as related advantage, ignorance or possession of truncated data, false, incorrect relating to the divine word, coupled with questionable morals and ethics clearly, those who take gambles on show villainy, wickedness, darkness, deceit, contempt towards people that He rubs, who trust him, he uses and which it requires or requests services see the accounts when it comes for him to succeed.

The ignorance, blind faith or ignorance of the data relating to good and evil, always involves man who persists in this way on the road to perdition when it falls into the hands of those perfidious beings and unscrupulous exploiters, calculators, liars who will stop at nothing to achieve their end.

The latter use mostly evil subterfuge to gain the confidence and interest of their flocks, often going to tell them about the true God, highlighting his teachings and his words, they ignore the remaining The interpretation and precise meaning, and they intentionally changed the content to their benefit, in order to force them to practice their destructive plan, omitting needless to say they indicate that the God whom they refer actually called satan.

Being of Light told well in warning to men;

Be careful how you listen.

Unfortunately many men who fall into the claws and the traps set by the son of the prince of darkness.

It is easy to recognize the good son, the son of evil.

The son of the property or the son of the light vehicle and provides expertise, knowledge, words of truth footprints, that is to say which emanate sweetness, tenderness, actually correct

things, actual construction of the existence, spiritual evolution, righteousness goodness, wisdom, sense of real justice.

The latter hates the evil in all its forms. He is a quiet, calm naturally inspires confidence. You can hear the ever speak ill of anyone. You can hear the ever criticize or make judgments against others. Rather, it takes pleasure in helping others without asking anything in return, he likes to advise, guide, so that man can develop healthily and steadily, and is nourished by word from the source of God's light. It's always a man of peace.

On the contrary the other, the son of evil and destruction, is easily recognizable. He resembles his father Satan he reflects. He's a negative character angry, unstable enough, with limited intelligence, often very aggressive, which ignites a yes or a no, which of course shows a constant wickedness. That's the son of the devil, because he lies and utter lies like it distills with pleasure, and it mixes in all subjects or projects it develops and yours to make, which is usually the result, chaos.

It is a being who can refrain from constantly criticizing everyone, and especially those who work in the sense intended by God. He obviously wants the whole world, and puts his incompetence and his spiritual and intellectual limitations, the service designs or works of evil, whose result is generally the assassination.

Someone who has no quality, and hides his inferiority complex, an abuse of authority by holding constant about leadership and focus.

It is a being imbued with his person, racist moreover, who does very little person, and compounded materialism. Someone who happen to use for its calculation, the services of poor wander, the penniless, the idle example, those that can be handled easily, because incapable of thinking for themselves, to that it will lure Mountains and marvels that he or promise of rewards that can not meet, and they never will. He shamelessly Bernera provide them with assistance and financial support to make them believe that they want the property, and of course it works on behalf of the true God, whom he frequently cites the name, but it do not really know.

Beware my friends, you easily recognize the son of evil, because if you listen carefully, you find that is consistently hateful, treacherous and cruel. It will ask you to shed the blood of revenge, because for him, revenge is a natural outcome of any claim, imitating his father Satan. Beware of him.

This is proof that his intentions are dishonest as directed for a specific purpose and interest. He needs you so that you realize for him of wrongdoing, destructive, destabilizing the divine order.

Remember my friends, that these wicked men, serve the prince of darkness.

Back away from all the rest of this despicable character, because he wants your loss. It was for sure very little respect. He sends you to the real death, asking you to become a murderer, in taking the life of one or more persons who are other than your own brothers, by failing to tell you voluntarily, you condemn yourself to damnation divine.

God did he not say;

Thou shalt not kill?

For this son of Satan, you have very little importance, and as his father, he does not want you to go find the Being of Light. He knows he will not enter into the holy heavenly universe, then by rancor, it does not, you go there too.

Understand the difference my friends, between the son of the well, which means your happiness and you are saved, the son of evil, who does not love you and wants your loss.

Learn to listen to my friends, be able to identify about a tone with aggressive and / or tone of voice high, shows a black background and dark, and a revolt whose obvious aim is to capture your attention, while forcing you to listen and accept these ideals.

Intentions misleading sometimes difficult to detect, but once you understand that the result is the challenge, getting people to revolt, to pass the act of committing destructive acts, we must quickly consider and stop.

Moreover, these malicious people, or work generally claim to be for good, but actually their true purpose and they do not hide, is to bring their partner to commit acts of destabilization and destruction, which murder is the climax to attract the attention of mankind to get rallies, but the main underlying reason is to satisfy their own interests. But that they did not confess. Listening means being able to perceive the true ideals of negative beings, which as we have seen above, have a behavior imprint of hatred and malice.

Once you enter the data mentioned above, is listening to get away from unpleasant to dire consequences.

Learn to listen well, it's also be clear, being able and capable of penetrating the divine word, to understand the exact meaning, knowing that the Being of Light was always addressed to men in spiritual being and that necessarily his words have a connotation, an expression and a profound sense of spiritual only. Interpreting the divine word by transposing it into human language that is to say in terms of materialist philosophy in human, is a fundamental error.

Here is the main reason why men have never been able to understand God, nor to penetrate his true mode of reasoning, thinking, or to make the most of his speech.

Listening in this case is able to warn men that know not God, and who can change the sense of the divine word, both for the obvious purpose of better handling, but as to mislead them by using the device as the main lie that is the resultant loss. Often these men Machiavellian, deceitful evil plans whose result is the destruction of a people, a nation, if not a part of humanity. In the resulting chaos, they want or hope to establish a new momentum, where their father Satan is the absolute master.

It is imperative in this case and all the other reasons given, to preserve them, analyzing and interpreting their proper context, by transposing them with those of God who is goodness, righteousness, wisdom, love, justice and peace to pierce their true merits.

We will thus protected from the devil and his son, and we preserve waves and negative mass and they distill diffuse in all directions in order to maintain and secure our gains in terms of spiritual knowledge, knowledge of truth, and spiritual elevation.

By falling into their trap shameless and monstrous evil because we find ourselves immersed and trapped in a matrix materialism will make us blind, unable to perceive right from wrong, to penetrate the truth and to reveal the essence. Then we will lose what is most precious to us, spiritual entity par excellence, an exceptional ability that God gives us, that of the cleaning power of our spiritual essence, undergo transmutation of our gasoline, thereby achieving join in the holy and heavenly kingdom of the benefit gained eternal life, the ineffable happiness for eternity.

But the prince of darkness was cast out of Paradise because of his hatred of mankind, will lead man in its fall, and does absolutely not be saved.

That is why the Being of Light Said;

For to him who to, (God will give those who walk on the path of light, and the research, purifying its spiritual essence. He will reveal the hidden knowledge, the mysteries of heaven. It will give him everything he asked, in light of his salvation and his spiritual elevation.)

But he that hath not shall be taken away even what he thinks he has.

That is to say that whoever believes have knowledge, knowledge or possession of the truth, once it decides to walk on the path of evil, as do these religious leaders and other iniquitous Machiavellian, true son of Satan, lose all their achievements. They think they know, but in reality they know nothing because they are blinded. Life without them would be removed after the darkening of their minds. For them it will be the world of darkness forever with the devil.

Let me conclude this chapter, you reveal an important fact still unknown men, who is actually the result of our actions, good or bad, and the effects it generates.

The man who longs to go in search of God, who wants to walk on the path to the light, follows, respects and applies the precepts and commandments of the Being of Light. By choosing the path of righteousness, the man throughout his life, and as and impregnating her, suffered as a slow but real transformation in his deepest being, which translates into an awareness of the reality of spiritual being, and clarity and elevation of mind, an open mind on the truth hidden, and therefore enters Data unknown. His vision is expanding its area grew considerably, reaching a state of arousal, it is now open.

The fact of wanting to purify their spiritual essence, take the spiritual entity to open up the divine, and to be receptive now. It comes therefore in harmony with God.

The spiritual entity receives from the Supreme Being new data, and penetrate the mysteries of celestial celes. But what is even more important to talk in terms of land, is that it becomes aware of the primary reason for the presence of man on earth. Its space previously closed or restricted, opens and widens considerably, and all land data governing human behavior are revealed to him.

It naturally creates waves and masses of positive effects that have to hunt, repel, expel or destroy the air and negative mass emisent by evil men and murderers, found unfortunately too many in the 'atmosphere and pollute the space and matter.

The good man said to myself, creating waves and bodies that destroy the positive wave and negative masses, and thus predispose to grow naturally on the spiritual plane, and thus to see and hear what is not possible otherwise closed to the son of the prince of darkness.

The spiritual entity that chooses the right path, grew in knowledge and wisdom, as being made of naturally connected and in contact with the Holy Spirit which then transmits data to the truth, the celestial universe on the pre incarnation of the spiritual entity, and revealing God.

Being of Light walk with her.

Conversely, the spiritual entity who prefer to follow the path of evil, will occur many changes in her as a decrease of almost all his mental faculties, his sense of reasoning becomes increasingly incoherent, and find that its space and its field of vision will be narrowed considerably.

It happens in it a drastic reduction of knowledge, an inability to reason with clarity and objectivity, inability to take meaningful initiatives, or to perceive the reasons for its failures. It will be closed to all truth, and all data changing land, let alone those on celestial mysteries.

It goes without saying that it creates the evil which it carries and which comes from his inner self, waves and negative mass, which isolates and encloses in its fleshly envelope, and found indeed hermetic truth, knowledge, and becomes gradually introverted, sad, sad, aggressive, resentful. Closed to the truth, it will use all his energy to deny the existence of God.

To use an image, say that to create waves and masses that cause negative results and the choice of the path of evil, as if it emanated from the black smoke, which obscures its space, its environment, penetrate his body enclosing them, preventing it gradually to see clearly around her.

Soon she loses all sense of reality, losing all marks, no longer knows who she is, where it is or it may be the exact composition of the universe. Its space has shrunk dramatically. It will then be unable to locate, perceive reality, to penetrate the truth, will know where to go or how to act or react to difficult situations of earthly existence. Her spirit is as sclerotic. It will end up trapped in a matrix where it will not know how to get out, and will not be permitted to occur. She has lost everything.

Remember these words of the Being of Light.

To him that hath not shall be taken away even what he thinks he has.

Beware of the leaven of the Pharisees and Sadducees.

(Beware of those who take a language misleading. They do not go into the celestial universe, and do not want you as you go).

What are the three fundamental reasons why God gave men the precepts, laws and ordinances, commandments. ?

Remember my friends, God has always been interested in men, and often found himself distressed by their behavior full of wickedness, where his frequent interventions.

It is written:

God saw that the wickedness of man was great on the earth, and all thoughts of his heart was every day only to evil.

The man still ignores the precise effects engendered evil. Not only does he not know all the data on celestial mysteries, but he does not know either, most of the data that govern the earth plane, and those relating to actions and the effects they induce.

Being of Light soon realized that the man was very slow in thinking, reasoning, and that their decision or position, was conditional and subject to indifference. On the other hand, ignoring a great number of divine law, man is unaware that any act from malice, causing enormous suffering, pain and therefore destabilizes.

It is written:

If you do well, you lifted your face, and if thou doest not well, sin lieth at the door and its desire is for you. But you have dominion over him.

First reason.

Allowing men to have a lifestyle, or any human being would have its place, and could certainly benefit, in peace, the fruits of his labor, and equal division of property and wealth.

Make sure that everyone knows that he has rights but also duties.

Establish justice, honesty, attention, affinity, mutual support, raise awareness among decision makers, they are not above the law or above their run, and that they must govern with humility by referring constantly to the divine laws, which are imbued with humanism and love.

Second reason.

Do men understand that if land is freely available to them, it does not belong to them because it is owned by God and him alone. That's why he gives them, specifying them explicitly not to appropriate it.

Making men aware that any act malicious, criminal, necessarily generates, automatically, destructive effects, which cause suffering, pain, misery, distress in others, and that is precisely what does not.

It is therefore imperative to avoid suffering any pain that destabilizes and causes the person to sink into despair and require consequently make decisions that undermine its spiritual evolution.

Third reason.

Ensuring that men understand that they are brothers, because from the same source invigorating, that of God.

As such, they must learn to love, to respect, to give, to share everything, without ulterior motive.

The images show the man and the light that is in them is hidden.
 In the icon of the Father's light it will manifest, and the icon will be hidden by light.
 When you see who you look like, you rejoice. But when you see your icons, those who were before you, which neither die nor become manifest, how great.
 I grant you, it is difficult for ordinary mortals to understand, let alone penetrate the words of the Being of Light, and to understand both the essence and meaning hidden.
 This is why God has instructed me to hand you the keys of knowledge.
 Remember this passage my friends, not only is he telling the truth, but it tells you exactly, the deeper meaning and scope of words.
 All things were made by it (the word, the verb, Being creative source of light) and nothing has been done has been done without it.
 In him was life, and life was the light of men.
 Here in plain language, the exact translation of About Being light, mentioned in the preamble.
 Images (celestial beings or Being of Light) occur in humans, and the light (life) that is in them is hidden.
 In the icon of the Father's light it will manifest, and the icon will be hidden by light.
 In the spiritual essence of God the Father (God) will manifest the life and the spiritual essence of God is veiled by the vivifying source.
 When you see who you look like, you rejoice. But when you see your icons, those who were before you, which neither die nor become manifest, how great.
 When you see that as a spiritual entity you are like the Being of Light, you rejoice.
 When you see that you look like Entity Spiritual Divine (God) and that you too are spiritual entities, you rejoice.
 But when you see what you were before you embody in your fleshly envelope, knowing that your spiritual essence can not die or become known, what size.
 If we refer to the Bible, we find that the word of God on the creation of Adam and Eve, shows clearly that we, along with our first earthly parents, spiritual entities, including the spiritual essence Following is the source of life-giving God.
 Being of Light told;
 Let us make man in our image, after our likeness.
 Since that first moment of major importance, thousands of years have passed, and little by little, the man stuck in the matter, took up the cause of his environment, gradually forgetting its true origin, and place whence he came.
 Hinduism specifies rightly.
 Thought, speech, the verb is the first principle, and to come from the spiritual entity, and the matter in all its forms.
 The first duty of all parents is to transmit to his descendants, knowledge, knowledge, data concerning both the heavenly mysteries, but also those on the earthly plane. But this role, our first parents did not have. Their children and children of the latter have unfortunately followed the same path.
 The man gradually grew to a total lack of spiritual knowledge, unaware of the existence of God, not knowing who he is.
 The human being has become such a child born under X, which has not been sent the names of his biological parents, or that he was told simply that he did not.
 God has always condemned all those who know the truth and for spurious reasons, petty, biased or calculation without serious foundation, conceal or suppress the facts.
 The man, facing the unknown, can in turn talk about his ancestry to his children, and thus to reveal the names of his parents whom they know nothing.
 The past of our first parents fades gradually into the collective consciousness, and gives way to a huge unknown for those who want more, and assume that there is necessarily a

beginning. As for others, not only are they happy with it, but they eventually admitted as useless, futile and useless to inquire.

The human being is at this point. Not only has he forgotten all the many generations have helped, but he no longer believes in anything, and extremely difficult to think differently. Try my friends, to ask the inhabitants of remote areas or live in remote, closed like those of Amazon peoples, the Pygmies of Africa, or the aborigines of the Pacific, if it exists on the planet earth, men with lifestyles different from theirs, or more advanced, having an intellectual level more advanced, and a civilization dependent incommensurate with their own.

You'd be surprised by their response. They will let you know that you necessarily live like them and can not believe it could be otherwise. They will tell you that everything you say is false, because although their environment plying up and down and across, they saw nothing and heard of similar, related to the words that you care about your civilization.

You would have told them that everything you say is true, they have a hard time believing you.

Do you think it is different for men, as regards God, and of course the existence of infinite heavenly kingdom. ?

They are so accustomed to their surroundings, their environment and it contains, they can not admit that there may be or whatever, something more advanced, more advanced, much less than 1 origin of humans can be divine order, identical for everyone, from the same source. For a very long period, and not so long ago, the man believed by Ignorance, having misinterpreted the words with divine or by ignorance of the Divine Being implemented the exact meaning of the text on the map materialistic, that this resemblance is quartered and concerned exclusively the human body.

All this is obviously false.

As you know, God, the first living being, is the only one to have in its spiritual essence of God, all the first principles, most importantly, the principle source or invigorating.

The Supreme God is foremost a spiritual being, whose essence is a compound and a union of five divine sources into one, including the primary source of fertilizing anything, the source of all existence, and which is the matrix of LIFE.

To use an image, take the wife and see the central role it plays. Is not she who has the principal task of creating in her body, a fleshy envelope whose function is to receive a spiritual entity that it should embody.

As spiritual beings Divine Maggiore, God is the primary source, the vivifying principle, which is derived not only the spark, the germ of life, but also the essence of all spiritual entity, what we are, and that the celestial beings that are the angels.

If our spiritual essence comes from the divine essence of Being of Light, God of love for us, wanted us to be like him, we were like him. We're kind of, not only in itself, but also with the properties within whose lives we have that gift, as his double after his.

Hence the thought;

The man (spiritual entity) has been created by God in his image, likeness.

The major problem of man is not only its inertia, both materially and spiritually, but also his ignorance of data relating to truth, which leads to wrong, consider as real as anything that he can see and touch, the assumption that the material, whatever its form and composition of organic substance remains the only visible and palpable extent possible.

The fact of reason thus, indicating a short-sighted vision, limits verified in the direction of the real existence of the heavenly kingdom and all its contents, and creates in man a deadlock that prevents turning toward the source of all creations. All this prevents progress, evolve, and therefore see what is hidden, and admit it moves in the backyard of the real world.

Therefore, the fact of not wanting to see the visible, apparent material, rather than seeking to enter or to try to identify the essence or vital element is the driving principle, take the man to follow the path of blindness, and it masks the essential sailing her evidence.

Hence the phrase Being of Light.

The images show the man and the light that is in them is hidden.

The man is far too long remained blind, and tight data relating to truth.

It is true that his discharge, made by the Being of Light that he has revealed knowledge hidden and ignored until now, no man worthy of that name, has taken over.

Even today, religious whose ministry is to lead people, counsel them, crop them if necessary, and place them on the path to the light by revealing to them the supreme God, do not fulfill their role.

Many of them, moreover, have strayed from their mission, and engage in proselytism in all directions, spreading especially in poor areas or poor, the Satanic philosophy, leading men on the road to perdition by making them believe they are working on behalf of God, which will deliver them from poverty by providing them with wealth, or miraculously heal. These faithful believers know that the Satanic religion, they serve the prince of evil, and have only one purpose, interested in materialism, by making lots of money on their backs. Try my friends, to recognize the physical assets of these pastors to serve Satan. You would be surprised to find that they have buildings, television stations, various shops, and they retain the profits for themselves.

You turn away from them, as were the son of perdition.

Anyone who works on behalf of materialism is not the true God.

It is time for man to go in search of God and therefore it absorbs his words and not of men, in order to discover itself, ie ie, obtain a more clear and net his real self, which led him to his true origin, and that flame that gave it life.

There is nothing worse than stopping along the way, do not go up the path and go to the source, to know where it comes from and seek to discover not only who we are, but also able to discover what we are and who is our true Father.

Being of Light said rightly.

What do you know the beginning, you're looking for and the end?

The culmination of all that has been said, is to highlight, and the quintessential About Being of Light mentioned in the preamble highlights, the fountain, the overriding principle or the river of life which is in the divine essence of God, and he is the sole custodian.

God did he not say.

I am the light path and life.

Yes, not only is really life, since he possesses in his being, the vivifying source of which he is sole owner, but he only exemption to whomever he wants. Anyone who knows the Supreme Being, attest to this truth, and notes that God will frequently refers to that man knows that without this vital, nothing can exist and live.

The first principle that characterizes the divine essence of God is the life, even if at first when we talk about it, we represent it primarily as our Heavenly Father, Spiritual Being Heavenly Divine whose being hidden in view of our ignorance, heavenly divine essence and therefore the fountain or source bracing behind it.

It is she who has the primacy.

That is why the Being of Light says (in plain language).

In light of the divine essence of the Father, the life was manifested, and the representation of the divine essence is veiled, (make up) to the vivifying source.

When Being of Light is risen among men, he sought by this major act, let them know this truth and bring to their attention that if he could give his life, he had the power to resume. As her own life, and having the depth of his being, he alone can remove it or give it to anyone. It

is normal to see that he alone distills the spark or germ life, he graciously offers to everything and every being who lives in it (the earth, plants, wildlife, flora , animals, humans etc..) and the man who received from God, and who has been placed in his spiritual essence, through the celestial beings.

If God wished to reveal this fundamental al'homme, I am of course referring to the germ of life through which he can live, and that the angels were placed in his spiritual essence on the recommendation of the Supreme Being, that is precisely to enable us to understand that we do not enjoy the same prerogatives, but by love for us, if we wish to behave well, whether we like him.

Remember my friends, Being of Light is life, and having in his divine essence the fountain, the mother source, the matrix bracing, it can rightly say, it is life as it is part of his being.

What gives God alone the great privilege to live forever, without depending on anyone.

On the contrary, it is different for humans. As I've found, God told the angels, the heavenly helper, the mission to place within our body a spark of life, whose lifetime is limited in time and is based on lessons must learn that the man concerned, and the trials he must solve. After which, the celestial beings in the time expected, remove the spark of life the human body, and it will die.

On the other hand, to mark difference and signify a preference for the spiritual entity, God asked the assistants heavenly place in our spiritual essence, a germ of life in some way with the same properties as him, and whose life is almost identical to that of the Being of Light.

Namely, as proof of his love for us, God has insisted that our spiritual essence, having been generated by it is a copy of his, and that the germ of life which the angels up in our spiritual essence , derives directly from the tree of life, or more precisely the matrix bracing which is the sole repository. As such, it held that the germ of life we have in us, has the same properties as the source of Mother, so we were like him.

Not yet perfect spiritual entities, and do not clean our spiritual essence, we are doomed to follow the process of incarnation on earth, and to know the agony of death, which certainly does that body human, but this tragic episode or event, due to most of us to reflect, take the right steps, that is to say, respect and implement the directives of God if we no longer know death in searching through the good, eternal life.

Here is another reason to love God bears us, and the evidence that led us out the same to him. Now resemblance does not mean total identity, or that we are in all respects his double. If we are when in form and substance, Being of Light to this more than us:

It is perfection, wisdom, righteousness, goodness, justice, intelligence, knowledge absolute. But the man in comparison, is still light years away and shines by its imperfection and ignorance. This is to correct these deficiencies, to erase them, purify his spiritual essence, it is on earth.

God longs that we did, so that eventually we would find him and live with him an unspeakable happiness, far from suffering for eternity.

But until we have not washed our robes, as so aptly Being of Light, that is to say, clean our spiritual essence, we might as unfortunately happens to many men who do not monitor, observe and apply the divine guidance, and who still work for evil, to vegetate remaining confined in a spiritual universe through without any possibility to go higher, there waiting to be reincarnated for a new opportunity we are proposed. This zone spiritual, can be likened to purgatory.

I spoke a moment ago, the spiritual universe through. If we assume that the various celestial spiritual universe can also be called celestial abodes as did the Being of Light when he taught his apostles, through the house, is the invisible part of our material universe bit, and we cross penetrates.

Remember my friends, is the spiritual universe, which was also called Hades, since there remained locked, all the spiritual entities of the first generation, and waiting there, the advent of Being light.

Those that did not quite clean their spiritual essence, which were neither good nor bad, but is evidence of unbelief and materialism, there remains in this area.

As the Being of Light, before the last trial, which concerned I remember the first generation, had previously changed the heavens and the earth, so also changed the status of Hades, which became for the fact, through the spiritual universe, which remain in all spiritual beings, who during their earthly sojourn, would not know God, and they even rejected.

These spiritual entities after the death of their fleshly envelope, remain there, the time necessary to rest the turpitude of their last earthly life, recharge, and quietly waiting their next reincarnation.

In this spiritual universe through the spiritual entities are supported by assistants heavenly angels surrounding them affection, advise, guide them, extract their mind the false data sent on earth by the son of Satan. The celestial beings, their knowledge while providing just the data related to the truth, and especially their say what to do or not do, so they can succeed this time their earthly future, as is unfortunately provided they are reincarnated.

Everything happens in an excellent atmosphere of serenity, love and peace.

The assistants of God, give them the same instructions that God had communicated to Adam and Eve, when they had been expressly forbidden to touch or eat the fruit of the tree of good and evil.

What I want above all God, then you know who you really are. You could do this if you do everything that Being of Light you are prescribed. It will happen then in the blink of an eye if I can tell you, a kind of transmutation, you emerge from your fleshly envelope, and you will therefore you are a spiritual entity.

You'll have access to new celestial data, and most importantly, knowing now that you're short, you will have the honor and happiness, meet, rub shoulders and talk with the heavenly beings, supreme joy, to know god.

You finally know who you really are and who you look like. The question then shatters, everything becomes clear and bright, you know now that you're his son.

As a spiritual entity enjoying a rebirth, you know how you were before you play in an envelope flesh on earth, and easy to understand that it is neither more nor less than a garment material you have put to evolve in the material universe binary, and land in particular.

That is why the Being of Light said;

When you see who you look like, you rejoice.

But when you see your pictures (your representation of the spiritual entity) those who were before you (as you were before you embody in your carnal envelope) that die or are manifested, how great.

Know finally my friends, truly I say to you, the germ of life we have in our spiritual essence, which comes directly from the fountain located in the matrix of life-giving heavenly divine essence of God, and through which we live, has in its core, a plot of the Being of Light itself. Therefore, when God speaks of the seed of life, it also means by the word light, vital element of importance.

Also the seed of life that God has given us, is simply a representation of the divine essence of the Being of Light.

That's why I tell you truly, the Heavenly Father is still in us.

That's why you need to go to some place or house of prayer either for or seek contact with God, but turn you inside yourself, as your heavenly Father is there.

I'll give you what no eye has seen
What the ear has not heard
What the hand has not touched
What is not entered the heart of man.
Be passing.

I begin this chapter my friends, telling you the truth, that everything that God said to the men on the earth plane and the behavior they must hold, and all data on celestial universe and all its promises All this is true, for I am the witness.

Being of Light says;

He who drink from my mouth will become like me, and I am him, and hidden things are revealed to him.

All this is true.

By this phrase deep with meaning and promise, God says to men that if they go looking for him, they listen to his words, they retain his teaching and practice all the data that emanate from s' They follow and enforce its dogma, rejecting the evil in all its forms and particularly the evil, cruelty, crime, and they walk on the path to the light, that is to say the Being of Light, then they reveal the hidden mysteries.

I can attest to the accuracy of everything I just said is why I urge you to listen to the Supreme Being, because it is the truth, and the only one to hold

I say again, all that said, teaches and reveals God is true.

The man leads for decades, a life difficult, painful, full of pitfalls and trials little easier to overcome the suffering that their utility has certainly given its development and its spiritual evolution, which frequently leads to ask God to intervene and help him.

Anything you ask him, you give it. But remember to ask my friends, and pray it does not give you anything. Do not want to get things trivial, mild, transient or materialistic order, because you get nothing.

Understand that my friends.

You know now that you are spiritual beings, and as such, your presence on the planet earth, not only is not random, but is temporary and should in no way forever.

In truth, our ultimate goal is of course that every man is back in the infinite heavenly kingdom, and to remain forever with our Father God.

Now if we apply the satanic philosophy, which is to deny the existence of our Heavenly Father, and to deny the infinite heavenly kingdom on the pretext that their reality is doubtful, thinking that disseminates deliberately foul Satan, by raising property , ephemeral earthly riches, searching blindly power or glory from men, it is as if we dug our own grave, and we wanted to lock us in a dark room, closing the doors double-locked, we thus isolating real world.

We condemn ourselves to remain in darkness.

That's why my friends do not ask God for earthly things, for your own good, for your love and hello to you, not wanting your loss, but your happiness, it does you will not.

Imagine my friends, a father to a child who will ask him to buy a moped, then he can not use it. Recognizing the potential danger, and not wanting it comes anything wrong with her son, it is obvious that the father refused, asking his offspring as a first step to take driving lessons and road safety then a second time to master the machine.

The man is still like a child who ignores all data, both on land, on his spiritual development that pass through the control of divine law (which incidentally he is unaware) related to the material universe binary, and hello to his emergence on the matter in which he is held prisoner and he should be released, those relating to celestial mysteries that must be discovered.

On the contrary, ask the Being of Light to show you the path to light, resist the forces of evil, while respecting and applying what I wrote above.

Ask him to offer wisdom, insight, expertise and knowledge of hidden mysteries, to reject evil and to resist those who spread, to help you be good, just and right. All this, he will grant it, without restriction.

So whatever you ask him on your spiritual evolution, discovery of hidden data and celestial mysteries, know about the truth of all things, verily I say unto you, he will offer you.

If I tell you it is true is simply for several reasons, and because I got all this Being of Light, and more.

The first reason is the obvious fact that God is Truth, that he holds and disseminates who desires. He always told the truth to men.

Second, if you check the messages, you'll note that always says what he does, and does everything he has commanded. On the other hand, all his prophecies, the accuracy of its teaching and the depth of his speech, proved real and unequivocal.

Thirdly, as a witness, my loving Father God, walking as far as this bit about his not nourish myself constantly at its source and has persistently searching, I personally received him very many signs of love, warning and advice prophetic, divine instruction regarding data related to truth in both terrestrial and spiritual revelations of data hidden mysteries.

God granted me the honor to visit several times in the spiritual world, and meet the celestial beings, who allowed me to discover knowledge obscured to ordinary people on the post - incarnation, and the area of evolution and residence of the spiritual entities.

Joy ultimate Being of Light revealed to me, giving the honor to a spiritual entity incarnate, to know who he really is, and that for the first time. You can imagine how pleased I am to see him and talk to him.

If I tell you this my friends, this is certainly not to get glory, but rather so that you also be like me.

Our Father God, my friends, not only has never hidden, but he ardently desire that we find, because he loves us. If I was given all this, in turn, love to you and him, I reveal and you convey all that he taught me, with nothing to hide.

My dearest wish my friends is that you also get to the same stage of spiritual evolution that I, as you follow the same path, and we were all together in the heavenly kingdom infinite return our heavenly Father.

Be passing.

These two words of the Being of Light to the apostles, and transcribed by Matthew at first seem incomprehensible.

Anyone who read the Gospel of Matthew the Apostle, had to remain speechless, wondering what can be said these two words.

Since we know that the teaching of the Being of Light concerns, also in the material that surrounds the man, he has mainly a direct and precise with the spiritual realm and spiritual related data.

As I often wrote, God, Spiritual Entity Major is always addressed to men as such. Also, the divine philosophy that promotes and distributes to humans, its liberating thought that has ceased to develop and disseminate through the prophets, his advice, in short, all his words were always concerned the spiritual world of heaven, or referred thereto. Unfortunately, the man by his ignorance, has consistently misunderstood, or implemented in terms of materialism.

If we consider what has been said, the exact meaning of these words becomes clear.

Ultimately, these two words are essential and fundamental purpose, to make us understand that as a spiritual entity, we come to embody on planet earth, and taking for the occasion

clothing called carnal envelope, our presence is not due to chance, because in this situation any adventitious presence is simply absurd, and are reckless.

We came to earth to learn many lessons at first, appear to fall within the domain materialistic as belonging to and dependent on the material universe binary whose land is impregnated and party, while having the quintessence that they diffuse, branches and extension with the data they complete spiritual.

Most people unfortunately ignore the real reasons for their presence on earth, and what to do. Not only did they would not stir, but they continue to live and work in the dark, continuing to give importance beyond measure at what they see.

Therefore, they can approach and convince the son of perdition, who inculcate their satanic philosophy. Everything will be implemented, that they forget the true ideals, the real goal they set in reaching the earth, not remembering more advice and guidance that their postnatal had provided the celestial beings, and to finally get them to consider only the materialist realm, and fleeting pleasures, and without their future they offer.

Unfortunately we know where that leads.

On the contrary the wise man is one who, at some point in their lives, seeing the behavior of his brothers humans and what happens as devastating and destructive, or damage of any kind, cruelty, d abandonment, exclusion, depravity and indifference, can only wonder and ask the fundamental questions which will determine the resultant commitment.

From that moment on, he knows why he is on earth, and will set a main goal, to learn all the lessons and major essential to its development and spiritual evolution.

Which of you my friends, who have requested a moment of your life, besides what has been said, what is, in terms of spiritual development, the famous cycle from birth through the transition to adulthood, leading to old age?

These three phases of the cycle on earth, and the contribution of knowledge that are specific, must necessarily be understood by men, and integrated into the body of knowledge. They are among the pillars of the knowledge necessary for any development. On the other hand, they allow us to soak up data related to the vision that leads us naturally to ask what we were and where we were before our birth, or our incarnation, then what will happen to us the death of our bodies but also our attention to materialism, we realize, that to reach a fleeting and that we should not make so much.

The Being of Light was right when he said that to know the end, it was first necessary to know the beginning.

The three phases of the cycle on earth naturally leads us to there, and allow us, by asking ourselves three fundamental questions mentioned above, to respond and thus find our way.

Who are we and where were we before we incarnate on earth?

Why are we here?

Where will we go after the death of our fleshly envelope?

Be the way, says God.

Given what you know now, these words of deep meaning, just want to say:

Knowing that you are spiritual beings, and where you come from, learn the essential lessons for your development and your spiritual evolution that will be taught to you on earth, so you can refine your spiritual essence and reject evil in all its forms, and the Satanic philosophy. It is important not to make the mistake of too many men choosing to stay or want to remain for an unknown period on earth.

Make sure, of being there that way, to go back where you came from, where you're from.

All your thoughts must be turned to God and the infinite heavenly kingdom.

It is written;

There is light within a man of light, and it illuminates the world.

Lao Tzu said ;

Return to the source, and found nature.

Let me underline this on the contrary.

Returns to the beginning, because there is the original source. You'll find God, truth in all its purity.

So you know, for you there will be no fear.
